Re: **CAPX FARGO TRANSMISSION LINE COMPLIANCE**
CASE NO. PU-07-759

Dear Mr. Lein:

Enclosed please find one set of 8.5x11 paper design drawings for Segment 1 of the North Dakota portion of the CapX2020 Fargo Transmission line project. This includes the area from the Bison Substation to structure 132. Segment 2 which includes the area from structure 133 to the Red River is anticipated to go to construction winter of 2013/2014. Segment 2 design drawings will be submitted prior to any construction in that area. It is anticipated that the majority of the foundations in Segment 1 will be completed this winter season. A cd containing the same information is also included.

Please feel free to contact me if you have any questions or concerns.

Sincerely,

Darrin Lahr
