Re: Procedural Schedule to which NSP and staff have agreed

Date: 4 February 2007

NSP filed a proposed procedural order incorporating filing dates for testimony and response times for discovery. After discussion with staff, NSP filed a letter withdrawing its request for a procedural order which included a one-page statement of filing dates and response times to which both NSP and staff have agreed. Neither the request for a procedural order nor the withdrawal letter was docketed in the case.

The purpose of this memo is to docket the one-page procedural schedule to which the parties have agreed, a copy of which is attached.
