RE: Notice of Coverage under  
Construction Storm Water General Permit **NDR10 - 2272**

Dear Mr. Knell:

We have reviewed your application for coverage under the North Dakota Pollutant Discharge Elimination System (NDPDES) General Permit associated with storm water discharges from construction activity, NDR10-0000. Your application has been assigned serial number:

<u>Coverage #</u>	<u>Site name</u>
<b>NDR10-2272</b>	<b>Columbus Phase 9</b>

Please remember to update the Storm Water Pollution Prevention (SWPP) Plan when necessary, and to inspect, maintain and adjust the best management practices (BMPs) and temporary structures until the site is stabilized following construction activities. Once the site is stabilized as outlined in the general permit, you may file for termination of permit coverage. Cities or counties may impose additional requirements and/or specific BMPs for construction affecting their storm drainage system. Please check with the local officials to be sure all local storm water management considerations are addressed. The general permit (NDR10-0000), forms and additional information may be found at the following webpage:
