On April 23<sup>rd</sup>, the Commission entered into a contract with Material Testing Services, LLC of Minot for material testing services for the Williams County Road 9 Phase 3 project near Williston. The contract was for testing the grout mixtures that were injected into abandoned underground mine workings and related services. The contracted amount was \$27,040 and work was completed for a total cost of \$27,137.50. One change order was issued to slightly increase the amount for lab testing. The work was completed in a satisfactory manner and the AML Division recommends that the contract be closed.
