Dear Jennifer:

We have reviewed: **08-0444: "PSC/KLJ M-Power and National Wind, LLC  
150 Mega Watt (MW) Griggs and Steele County, Wind Farm & kV  
Transmission Line "** correspondence. There is potential for unrecorded and recorded properties in a variety of physiographic settings in the overall study area north of Luverne, as indicated on the attached map.

*If the project requires permits issued by a federal and/or state agency (e.g., WAPA, RUS, COE, USFWS, BOR, PSC) then the respective agency(ies) are to be consulted regarding their recommendations on the project. As a potential federal undertaking, we encourage agency consultation as part of the Environmental Assessment process.* At this point, we encourage that a Class I CRI (file and records search) be prepared and submitted for review to the appropriate agencies, as delineated from the map coverage you provided.

Thank you for the opportunity to review the project, and to further consultation on it. If you have questions please contact either Susan Quinnell at (701) 328-3576 or Paul Picha at (701) 328-3574. Please include the **NDSHPO REF.:** **08-0444** in correspondence regarding the project.

Sincerely,

Merlan E. Paaverud, Jr.
