

STATE OF NORTH DAKOTA  
PUBLIC SERVICE COMMISSION

**Minnkota Power Cooperative, Inc.  
Pillsbury-Fargo 230 kV Transmission Line  
Siting Application**

**Case No. PU-08-048**

**AFFIDAVIT OF SERVICE REGULAR, EMAIL OR INSIDE MAIL**

STATE OF NORTH DAKOTA  
COUNTY OF BURLEIGH

**Janet Marquart** deposes and says that:

she is over the age of 18 years and not a party to this action and, on the **25<sup>th</sup> day of April, 2008**, she deposited in the United States Mail, Bismarck, North Dakota, 58 envelopes by first class mail, fully prepaid, securely sealed and each containing a photocopy and 58 electronic mail electronically sent a copy of:

**NOTICE OF FILING AND NOTICE OF HEARING  
ORDER DENYING INTERVENTION**

The envelopes and electronic mails respectively were addressed as follows:

See attached list.

Each post office address shown is the respective addressee's last reasonably ascertainable post office address and each email address is the respective addressee's last reasonably ascertainable electronic mailing address.

Subscribed and sworn to before me  
this **25<sup>th</sup> day of April, 2008**.

*Janet Marquart*

*Esther Jangula*

**STATE OF NORTH DAKOTA  
PUBLIC SERVICE COMMISSION**

**Minnkota Power Cooperative  
Pillsbury-Fargo 230 kV Transmission Line  
Siting Application**

**Case No. PU-08-48**

**NOTICE OF FILING AND NOTICE OF HEARING**

**April 21, 2008**

On March 18, 2008 Minnkota Power Cooperative, Inc. (Minnkota) and Otter Tail Corporation d/b/a Otter Tail Power Company (Otter Tail) filed an application for waiver of procedures and time schedules, and a consolidated application for a certificate of corridor compatibility and a route permit authorizing construction of a 230,000 volt (230 kV) electric transmission line and associated facilities. On April 17, 2008 the application was amended with a revised corridor and route proposal and with notification that Otter Tail wishes to withdraw as an applicant because it is no longer an owner of the project. The revised project consists of approximately 61.6 miles of proposed 230 kV electric transmission line and associated facilities in Barnes, Cass and possibly Steele Counties of North Dakota as shown on the attached map.

The waiver application requests the Commission waive, pursuant to North Dakota Century Code (NDCC) section 49-22-07.2, procedures and time schedules set forth in NDCC sections 49-22-08, 49-22-08.1, 49-22-13 and ND Administrative Code section 69-06-01-02 and hold a single consolidated hearing on the waiver application and the consolidated application for corridor certificate and route permit.

The Commission finds the amended applications complete on the condition that a map showing proposed final transmission line structure locations is filed on or before May 15, 2008.

The issues to be considered in this proceeding are:

1. Will the location, construction, and operation of the proposed electric transmission line produce minimal adverse effects on the environment, natural resources, and upon the welfare of the citizens of North Dakota?
2. Is the proposed electric transmission line compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed electric transmission line corridor and route minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and

ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

4. Is it appropriate for the Commission to waive the procedures as requested in the application including the request for a single consolidated application for Corridor Certificate and Route Permit?

A **public hearing** on these matters is scheduled to begin **May 22, 2008 at 10:00 a.m. CDT** in the **City Hall Auditorium, 702 1<sup>st</sup> St. N., Casselton, North Dakota 58012.**

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials please notify Illona A. Jeffcoat-Sacco, Executive Secretary at least 24 hours in advance.

**STATE OF NORTH DAKOTA  
PUBLIC SERVICE COMMISSION**

**Minnkota Power Cooperative, Inc.  
Pillsbury-Fargo 230 kV Transmission Line  
Siting Application**

**Case No. PU-08-48**

**ORDER DENYING INTERVENTION**

**April 23, 2008**

**Background**

On March 18, 2008 Otter Tail Power Company ("Otter Tail") and planned joint partner Minnkota Power Cooperative, Inc. ("Minnkota") filed a joint application for a waiver of procedures and time schedules, and consolidated application for a certificate of corridor compatibility and a route permit ("Application") authorizing construction of approximately 56.6 miles of 230 kV electric transmission line located in Cass, Barnes and possibly Steele Counties of North Dakota, Case NO. PU-08-48.

On April 9, 2008 RES Americas, Inc. ("RES Americas") and Peak Wind Development LLC ("PEAK Wind") also jointly referred to as ("Petitioners") filed a petition to intervene in the captioned proceeding. Petitioners request that the Commission grant their intervention and allow them an opportunity to serve Otter Tail and Minnkota with formal discovery requests. Petitioners estimate that discovery would take no more than 60 days.

Petitioners state they will jointly develop a wind farm on property owned by PEAK Wind members, and that on October 16, 2007, PEAK Wind filed with the Midwest Independent Transmission System Operator, Inc, ("MISO") a request to interconnect to the interstate transmission grid at Otter Tail's Buffalo Substation located in Cass County, North Dakota. Petitioners also state that the proposed transmission line would originate approximately 500 yards away from the PEAK wind property in Barnes County and would be located within close proximity to Peak Wind's requested location of interconnection on Otter Tail's transmission system.

Petitioners state that it is their position that Otter Tail is required to file a petition for a Certificate of Public Convenience and Necessity (CPCN) and that the Commission should hold hearings on the CPCN application for the proposed transmission line before issuing a corridor certificate and route permit.

Petitioners state that they have a direct and substantial interest in this proceeding, and that if they are not permitted to interconnect with the proposed transmission line, they will be adversely affected. Petitioners allege that they cannot be adequately represented by existing parties, that they have a right to intervene, and that their intervention is in the public interest. Petitioners state that their intervention will not unduly burden or unduly delay the proceedings.

Petitioners state that the proposed transmission line is not included in either OTP's or Minnkota's ten year plans. Petitioners urge the Commission to require updated ten year plans be filed before the Commission acts on the application.

Petitioners state that they are not opposed to the construction and siting of the proposed transmission line.

On April 17, 2008, Minnkota, with the concurrence of Otter Tail, filed an Amendment to the Application with a revised corridor and route proposal and with notification that Otter Tail wishes to withdraw as an applicant because it is no longer an owner of the project. The revised project consists of approximately 61.6 miles of proposed 230 kV electric transmission line and associated facilities in Barnes, Cass and possibly Steele Counties of North Dakota.

On April 18, 2008 Minnkota filed its objection to the petition for intervention and a motion to dismiss the petition for intervention or in the alternative a motion for expedited hearing.

Minnkota objects to Petitioners' intervention request for the reason that Petitioners present no valid basis for intervening in the proceeding. Minnkota states that Petitioners' request for intervention raises no issues related to siting, and that to the extent their filing raises any issues, those issues are transmission access issues that need to be properly addressed to the MISO or the Federal Energy Regulatory Commission ("FERC").

Minnkota argues that allowing the intervention would result in the delay of projects for generators of electricity who have made the necessary interconnection requests and initiated transmission studies for such interconnections. Minnkota states that time is of the essence in this proceeding. The transmission facilities for which the certificate and permit are requested are necessary to connect new wind facilities which developers seek to bring on-line by December 31, 2008 in order to benefit from the Federal Production Tax Credit.

Minnkota states that the petition to intervene fails to satisfy the requirements of Chapter 69-02-02-05 of the North Dakota Administrative Code in that the Petitioners have no statutory right to intervene, they have failed to state any basis for intervention, and granting intervention would unduly delay the application pending in this proceeding. Furthermore, the Petitioners state that they are not opposed to the construction and siting of the proposed transmission line.

At a special commission meeting held on April 21, 2008, the Commission acknowledged the withdrawal of Otter Tail as an applicant in this proceeding and issued a Notice of Filing and Notice of Hearing on the Application.

### **Discussion**

Section 69-02-02-05 of the North Dakota Administrative Code provides in part that "[a]ny person with a substantial interest in a proceeding may petition to intervene in that proceeding by complying with this section. An intervention may be granted if the petitioner has a statutory right to be a party to the proceeding, or the petitioner has a legal interest which may be substantially affected by the proceeding, and intervention would not unduly broaden the issues or delay the proceeding."

Subsection 1 of section 69-02-02-05 states in part that the petition to intervene must set forth the grounds for intervention, the position and interest of the petitioner, what the petitioner would contribute to the hearing, and whether the petitioner's position is in support of or in opposition to the relief sought.

The Petitioners fail to satisfy the first requirement of section 69-02-20-05 because they fail to state a substantial interest in the proceeding. The interest that they seek to protect is the right to interconnect to the transmission line. Interconnection is not an issue that can be addressed in a siting application under chapter 49-22.

Likewise, Petitioners have not shown that they have a statutory right to be a party to the proceeding, nor that they have a legal interest which may be substantially affected by the proceeding. The interest that the parties have is for interconnection, and interconnection is not an issue that is determined in a siting proceeding.

Petitioners state that a CPCN is required for construction of the transmission line. Under Chapter 49-03 of the North Dakota Century Code, a CPCN is required before an electric public utility can construct the transmission line. Otter Tail has withdrawn as an applicant in this proceeding. Minnkota is an electric generation and transmission cooperative under Chapter 10-13 of the North Dakota Century Code that does not need a CPCN under Chapter 49-03 to construct an electric transmission line.

The Petitioner's argument concerning the Applicants' failure to update ten-year plans to include the proposed transmission line does not constitute grounds for granting the intervention. The ten year plans are filed annually with the most recent information available. There is no requirement for updating between annual filings.

Petitioners state in paragraph 24 of their petition that they "are not opposed to the construction and siting of the Proposed Transmission Line."

We find that Petitioners' request fails to set forth any grounds for intervention and would likely unduly broaden the issues or delay the proceeding.

**Order**

The Commission Orders that the request for intervention filed by the Petitioners is DENIED.
