August 6, 2008

Mr. Derrick Braaten
Sarah Vogel Law Firm, P.C.
222 North 4th Street
Bismarck, ND 58501-4004

Dear Mr. Braaten:

Enclosed is a CD containing electronic copies of the remaining correspondence and other records on file with the PSC's Reclamation Division related to the surface coal mine proposed by Great Northern Power Development. Most of this pertains to correspondence between Reclamation Division staff and Great Northern Power Development's consultants that are preparing a permit application for the mine that is proposed near South Heart in Stark County. This completes the Reclamation Division's response to your letter that we received July 17th.

Documents on this CD are copies of stored e-mail messages related to the South Heart project, scanned meeting notes, photos taken during site visits, and miscellaneous materials. Many of these documents have been converted to pdf documents that can be viewed on most computers. As you will note, many of the e-mail messages contained electronic attachments and most of these documents were stored in our South Heart electronic folder that was previously sent to you. However, if an e-mail attachment was not stored in that folder, the attachment has been separately copied to the enclosed CD. The file name remains the same as that indicated on the copy of the e-mail message.

If you have any questions on the electronic documents or encounter any problems in viewing them, please let me know.

Sincerely,

Jim Deutsch
Director, Reclamation Division

Enclosure
