RE: Capacity Increase - Decrease

Dear Alan:

Your request to extend your 750,000 bushels of ground storage for corn located on a dirt surface south of the main elevator is approved. This ground storage request was originally approved November 19, 2008. Luverne will remain licensed for 1,282,000 bushels.

Your request to decrease the capacity at Luverne by 750,000 bushels (1,282,000 to 532,000) effective March 31, 2009 to reflect the deletion of this temporary storage is granted. **Our office will not contact you regarding this reduction.**

**Remember, if you are unable to have the grain removed before March 31, 2009, you must contact the Licensing Division and request an additional extension.** If the grain is not removed before March 31, 2009, and you have not requested an extension, you will be in violation of state law, which could result in a complaint proceeding.

Thank you for your continued cooperation. If you have any questions, please call me at 701-328-4097.

Sincerely,

Susan K. Richter  
Licensing Division
