RE: Capacity Increase - Decrease

Dear Ronald:

Your request to increase the license capacity at Forbes by 100,000 bushels to reflect ground storage for corn located north of the elevator on grass surface is approved. With this change your licensed capacity is now 331,000 bushels at Forbes effective November 15, 2008.

Your request to decrease the capacity at Forbes by 100,000 bushels (331,000 to 231,000) effective February 15, 2009 to reflect the deletion of the temporary storage is granted. **Our office will not contact you regarding this reduction.**

If you are unable to have the grain removed before February 15, 2009, you must contact the Licensing Division. If grain is not removed before February 15, 2009, and you have not requested an extension, you will be in violation of state law, which could result in a complaint proceeding.

You may not use any other space for warehouse operations without prior written approval from the Commission. Space that is not approved for use by the Commission must be physically disconnected from the remainder of your elevator.

Your continued cooperation is appreciated. If you have any questions, please call me at 701-328-4097.

Sincerely,

Susan K. Richter
Licensing Division
