RE: Capacity Increase - Decrease

Dear Pete:

Your request to increase the license capacity at Dahlen by 80,000 bushels to reflect the addition of ground storage for soybeans located approximately 200 feet north of the main elevator is approved. With this change your licensed capacity is now 430,000 bushels at Dahlen effective September 19, 2008.

Your request to decrease the capacity at Dahlen by 80,000 bushels (430,000 to 350,000) effective December 19, 2008 to reflect the deletion of the temporary storage is granted. **Our office will not contact you regarding this reduction.**

If you are unable to have the grain removed before December 19, 2008, you must contact the Licensing Division. If grain is not removed before December 19, 2008, and you have not requested an extension, you will be in violation of state law, which could result in a complaint proceeding.

You may not use any other space for warehouse operations without prior written approval from the Commission. Space that is not approved for use by the Commission must be physically disconnected from the remainder of your elevator.

Your continued cooperation is appreciated. If you have any questions, please call me at 701-328-4097.

Sincerely,

Susan K. Richter
Licensing Division
