RE: Capacity Increase - Decrease

Dear Lona:

Your request to increase the license capacity at Portland (Bean) by 75,000 bushels to reflect the addition of Finley receiving station consisting of bins 104, 105, 106, 107, and 108 in Section C (45,000 bushels) and Bruce Christianson shed (30,000 bushels) is approved. With this change your licensed capacity is now 910,000 bushels at Portland (Bean) effective October 13, 2008.

Your request to decrease the capacity at Portland (Bean) by 45,000 bushels (910,000 to 865,000) effective December 31, 2008 to reflect the deletion of the temporary receiving station at Finley is granted. **Our office will not contact you regarding this reduction.**

If you are unable to have the grain removed before December 31, 2008, you must contact the Licensing Division. If grain is not removed before December 31, 2008, and you have not requested an extension, you will be in violation of state law, which could result in a complaint proceeding.

You may not use any other space for warehouse operations without prior written approval from the Commission. Space that is not approved for use by the Commission must be physically disconnected from the remainder of your elevator.

Your continued cooperation is appreciated. If you have any questions, please call me at 701-328-4097.

Sincerely,

Susan K. Richter
Licensing Division
