Nicole:

Based upon the information received in Whiting's letter, dated June 27, 2008, I have determined that the 17 mile Robinson Lake line is a jurisdictional intrastate transmission line. The determining information is found in 49 CFR Part 192.8 (a)(1) and Section 2.3 of API RP 80.

Under North Dakota law, all transmission pipelines must go through the siting process BEFORE construction can begin. For information on the pipeline siting process, contact Patrick Fahn at 701-328-4077. I will pass on to Mr. Fahn the information attached to the above mentioned letter.
