Brian Larson, General Manager
Co-op Elevator of McClusky
PO Box 469
McClusky, ND 58463

RE: Capacity Increase - Decrease

Dear Brian:

Your request to increase the license capacity at McClusky by 134,000 bushels to reflect the addition of ground storage for wheat located north of the main elevator on grass surface is approved. With this change your licensed capacity is now 425,000 bushels at McClusky effective immediately.

Your request to decrease the capacity at McClusky by 134,000 bushels (425,000 to 291,000) effective November 25, 2008 to reflect the deletion of the temporary storage is granted. **Our office will not contact you regarding this reduction.**

If you are unable to have the grain removed before November 25, 2008, you must contact the Licensing Division. If grain is not removed before November 25, 2008, and you have not requested an extension, you will be in violation of state law, which could result in a complaint proceeding.

You may not use any other space for warehouse operations without prior written approval from the Commission. Space that is not approved for use by the Commission must be physically disconnected from the remainder of your elevator.

Your continued cooperation is appreciated. If you have any questions, please call me at 701-328-4097.

Sincerely,

Susan K. Richter
Licensing Division
