

## Memorandum

To: Licensing Division

From: Timothy Erdmann TAE

Date: August 20, 2008

Subject: Inspector recommendation, Noodles by Leonardo Inc.

I initiated an examination of public grain warehouse operations of Noodles by Leonardo of Cando on June 25, 2008 and completed the inspection upon receiving requested information and issued a Memorandum of Adjustment on July 14, 2008. The Memorandum listed possible violations. On July 17, 2008, a warning letter was mailed to the licensee. The proposed corrective action provided that the licensee convert all scale tickets which have not currently been converted within 45 days after delivery and forward documentation showing proof of conversion to the Commission by no later than August 19, 2008.

As of today, no documentation of corrective action was received from Noodles by Leonardo. I recommend that the current situation be presented to the Commission for their consideration. Staff discussion would be appropriate prior to presentation of this matter to the Commission.
