Subject: Northwood Storage

Hi Sue: Am going to be renting some storage this fall and also will have 2 new curvette quansets for Tim to measure. These will not be up till harvest is probably over, but would like him to measure when he can. Will use them if possible. Rental storage will be a potato house owned by Korsmo, with 3 bins and also a potato house owned by Johnson with 10 bins. Tim probably has these somewhere in my file as we have used them in the past. If you want a more formal letter, have Tim call me so I can give him some details and he can assign a PSC number for reference.
