RE: Additional Ground Storage

Dear Sue.

Tharaldson Ethanol Plant I L.L.C. wishes to obtain a permit for additional ground storage. We would like to pile 3 million bushels of corn on the ground at our Casselton facility. The pile will be located 50 yards either directly north or south of our current long term storage. The long term storage is the group of 11 grain bins located inside our loop track system.

Sincerely,

Ryan Thorpe
Vice President of Finance
