2009 Coal Fire Suppression, AML Projects Invitation for Bids (Dec. 2008)

**PART III.**  
**SPECIFIC PROVISIONS**

**Specific Terms, Conditions and Specifications**

**Utilization of Disadvantaged Business - Enterprises**

## **SPECIFIC TERMS, CONDITIONS AND SPECIFICATIONS**

**Project Objective:** To extinguish or suppress all burning materials within selected project sites.

**Project Funding:** Project funding is limited to \$40,000.

**Scope of Work:** This project will entail excavation and burial of burning lignite coal within the Little Missouri National Grasslands and/or on adjacent private property. There are approximately 14 known coal outcrop fires ranging in size from 1/10 acre to 1 acre or more in northwestern McKenzie County, within the Little Missouri National Grasslands. Coal fire suppression work will be conducted on as many of these sites as possible. There are additional coal fires on private property in southern McKenzie County and in Billings and Slope Counties. Coal fire suppression work may be conducted on these additional sites as funding allows.

Overburden depth to the burning coal seam(s) is expected to range from 2-20 feet. Average coal seam thickness is expected to be from 1-8 feet. Multiple burning layers are possible. If deemed necessary, the U.S. Forest Service may provide a water truck and personnel for quenching burning materials on the Little Missouri National Grassland areas. Seeding of areas affected by coal fire suppression work on the Little Missouri National Grassland sites will be completed by the U.S. Forest Service.

Contractors are required to understand that project work will be conducted over inherently dangerous burning coal seams, fractured and collapsing overburden. All precautionary measures shall be taken by the contractor to adequately protect his work force and equipment, and to minimize the potential for ignition of grass fires during excavation and suppression efforts.

Bid quantities are estimated and will be based on the successful contractor's price/cubic yard bid and mobilization. Payment will be based on measured cut volumes of intercept and/or burial trenches and measured volumes of material excavation required for complete extinguishment. The Commission reserves the right to estimate volumes based on negotiated hourly equipment rates if deemed necessary.

### **Standard Requirements**

1. Remove and stockpile topsoil or suitable plant growth material from around/within the defined project area.
2. Excavate intercept trench or burial trenches at prescribed depths for burial of competent overburden and/or burning materials.

3. Excavate and emplace burning materials into the burial trenches. Blend or intermix the burning/hot materials with clay or approved overburden in lifts as directed. Excavation of the active burn face is considered complete when the coal seam is cool to the touch. Water quenching (as required) may be performed by U.S. Forest Service personnel on the Little Missouri National Grassland site or sites.
4. Cover the backfilled trenches with approved material. Ensure that all buried materials are isolated from other combustible materials. Any combustible material removed from trenches or borrow areas must be covered or mixed with inert soil material.
5. Grade area to blend with surrounding topography and re-establish drainage.
6. Re-spread salvaged topsoil (where available) over disturbed areas. Drag the topsoil area with a spike-tooth harrow or equivalent and clean up the site.

At a minimum, the contractor is required to provide **an excavator. A dozer and/or front end loader is also required.** The contractor must have at least two fully-charged fire extinguishers on site at all times. The Commission Project Manager and U.S. Forest Service representatives will direct the location of the remaining project sites to be reclaimed.

The contractor is responsible for having utilities located and marked prior to any work, and may contact the North Dakota "One Call" Utility hotline at **811** or 1-800-795-0555. Any site access work undertaken by the contractor must be reclaimed to its previous condition.

**UTILIZATION OF MINORITY OR WOMEN-OWNED BUSINESS ENTERPRISES AND  
LABOR SURPLUS AREA CONCERNS**  
PUBLIC SERVICE COMMISSION  
ABANDONED MINE LANDS DIVISION  
SFN 16755 (Rev. 12-99)

The requirements of this Special Provision will govern over any other contract provisions which may be in conflict or contrary thereto:

1. The Contractor agrees to use its best efforts to utilize minority or women-owned business enterprises (M/WBE) in the award of its subcontracts and in procuring supplies and materials to the fullest extent consistent with the efficient performance of its contract. As used in this contract, the term "minority or women-owned business enterprise" means a business, at least 51 percent of which is beneficially-owned and controlled by minority groups or women or, in the case of publicly-owned businesses, at least 51 percent of the voting interest and 51 percent of the beneficial ownership interests are held by minority groups or women. For the purpose of this definition, minority means a person who is Black, Hispanic, Asian American, American Indian, or Alaskan Native. Attached to this IFB is a list of M/WBE Contractors and Suppliers certified in North Dakota as a reference source for bidders. Bidders are in no way limited to this M/WBE list for subcontracting opportunities to M/WBE Contractors.
2. The Contractor agrees to establish and conduct an affirmative action program to ensure that minority or women-owned business enterprises will have an equitable opportunity to compete for subcontracts and furnishing of supplies. In this regard, the contracts shall:
  - a. Designate a liaison officer who will administer the Contractor's M/WBE Program.
  - b. Give adequate and timely consideration to the capabilities of known minority or women-owned business enterprises.
  - c. Ensure that known minority or women-owned business enterprises will have equal opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules.
  - d. Maintain records showing (1) procedures which have been adopted to comply with the policies set forth in this clause, including the establishment of a source list of minority or women-owned business enterprises, (2) awards to minority or women-owned business enterprises on the source list, and (3) specific efforts to identify and award subcontracts to minority or women-owned business enterprises.
  - e. Include this special provision "UTILIZATION OF MINORITY OR WOMEN-OWNED BUSINESS ENTERPRISES" with certifications in all subcontracts.
  - f. Cooperate with the State in any studies and surveys of the Contractors' minority or women-owned business enterprises procedures and practices that the State may conduct from time to time.
  - g. Submit periodic reports with respect to the records referred to in subparagraph (d) above, in such form and manner and at such times (not more often than quarterly) as the State may prescribe.
3. The Contractor agrees to use its best efforts to utilize labor surplus area firms in the award of subcontracts. The term "labor surplus area" means a geographical area identified by the Department of Labor as an area of concentrated unemployment or underemployment or an area of labor surplus. The term "labor surplus area" means a concern that, together with its first-tier subcontractor, will perform substantially in labor surplus areas. The term "perform substantially in labor surplus area" means that the costs incurred on account of manufacturing, production, or appropriate services in labor surplus areas exceed 50 percent of the contract price. Attached to this IFB is a list of labor surplus area counties in North Dakota as a reference source for bidders.

The Contractor agrees to establish and conduct a program which will encourage labor surplus area firms to compete for subcontracts within their capabilities. In this connection, the Contractor shall:

- a. Designate a liaison officer who will (1) maintain liaison with duly authorized representatives of the government on labor surplus area matters, (2) supervise compliance with the "Utilization of Labor Surplus Area Concerns" clause, and (3) administer the contractor's Labor Surplus Area Subcontracting Program;
- b. Provide adequate and timely consideration of the potentialities of labor surplus area concerns in all "make-or-buy" decisions;
- c. Assure that labor surplus area concerns will have an equitable opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation of labor surplus area concern;
- d. Maintain records showing procedures which have been adopted to comply with the policies set forth in this clause; and
- e. Include the "Utilization of Labor Surplus Area Concerns" clause in subcontracts which offer substantial labor surplus area subcontracting opportunities.

Included in Parts 4, 5, and 6 - "BID FORMS" of this IFB are one M/WBE Subcontractor Certification, one M/WBE Supplier Certification, and one Labor Surplus Area Certification which must be completed by the bidder and returned with the bid package.

**FAILURE TO COMPLETE AND RETURN THESE FORMS SHALL RESULT IN BIDDER DISQUALIFICATION.**
