Introducing our new programming executive – you

DVR stands for Digital Video Recorder. What it really means is you're not a slave to the TV schedule. It's a digital hard drive for your television you can use to save hours and hours of your favorite shows, games and movies to watch whenever you want. Cool? It gets even better.

FRIENDS DON'T LET FRIENDS VIDEOTAPE

DVR may sound like a VCR, but it's so much more, doing things no VCR ever could. Like record two shows at once. Or automatically record an entire season of a show – but only the new episodes. Lets you watch one show while recording another. Or even pause, rewind and record live shows! Just hit record when you're watching a channel, highlight a show in the Interactive Program Guide, or choose DVR from the main menu to schedule your recording. Then watch the shows you want, when you want. It's like being the programming executive of your own network.
