SUBJECT: Case No. PU-08-862 - In the Matter of a correction to the Outdoor Lighting – Energy Only rate schedule for Otter Tail Corporation, d/b/a Otter Tail Power Company

Dear Mr. Nitschke:

On February 12, 2009, Otter Tail Corporation d/b/a Otter Tail Power Company (“Otter Tail”) submitted a letter indicating that we found an error in our Outdoor Lighting – Energy Only rate schedule for interim rates effective with bills rendered on and after January 2, 2009. Jerry Lein brought it to my attention that in addition to removing the Change In Base Cost of Energy paragraph, the following parenthetical included in the Interim Rate Adjustment paragraph also needed to be removed.

(after the increase of 1.447 centers per kWh)

As we have stated in our February 12, 2009 letter, this rate schedule was not previously subject to the Cost of Energy Adjustment Clause. So the addition of the Change In Base Cost of paragraph and the parenthetical in the Interim Rate Adjustment should not have been included in the rate schedule effective for January 2, 2009.

Otter Tail requests the North Dakota Public Service Commission recognize these changes as an administrative correction.

OUTDOOR LIGHTING – ENERGY ONLY

Rate Zones 1 & 9

Street and Area Lighting - Metered	44-748
Street and Area Lighting - Non-Metered	44-749

APPLICATION OF TARIFF: This tariff is applicable to both private and governmental entities. The tariff will allow the Company to sell electric energy to municipal and other outdoor area lighting customers who choose to own, install, and maintain the lighting equipment. Under the tariff, Otter Tail will provide only the electric energy.

EQUIPMENT AND SERVICE OWNERSHIP: The customer or other third party shall install and own all equipment necessary for service beyond the point of connection with Company's electrical system. The point of connection shall be at the meter or disconnect switch, for service provided either overhead or underground. The customer will be responsible for furnishing and installing a master disconnect switch at the point of connection so as to isolate the customer's equipment from Company's electrical system. The customer's disconnect switch must meet the Company's specifications.

The customer is responsible for the cost of providing maintenance on the equipment it owns. The Company reserves the right to disconnect the customer's equipment from the Company's electrical system if, in the Company's determination, the customer's lighting equipment is operated or maintained in an unsafe or improper manner.

RATE - METERED

Facilities Charge:	\$1.40 /month
Energy Charge:	\$0.05898/kWh
Minimum Monthly Charge:	\$1.40/month

RATE – NON-METERED

Monthly Charge = *Connected kW* x \$20.15, where *Connected kW* is the rated power of the lighting fixture (including ballast)

CHANGE IN BASE COST OF ENERGY:

~~There shall be an adder of 1.447 cents per kWh to each energy charge in this rate schedule.~~

N
N

INTERIM RATE ADJUSTMENTS:

A 4.07 percent increase will be added to the sum of the following, as applicable: Customer Charge, Energy Charge (after the increase of 1.447 cents per kWh), Demand Charge, Fixed Charge, and the monthly Minimum Charge.

SERVICE CONDITIONS: Service shall be provided off of standard distribution facilities typical of those

in the general area. If it is necessary for the Company to install non-standard distribution facilities in order to provide service, the customer shall be responsible for any additional costs associated with the non-standard facilities.

As part of this tariff, the Company will provide an extension of up to one span of wire, not to exceed 300 feet.

No additional transformer capacity shall be provided without additional charges.

The customer shall indemnify, defend, and save the Company harmless from any liability, loss, or expense arising from or growing out of injury to persons, including death, or property damages incurred by persons other than the Company or the customer, which may occur on the electrical system of the customer (i.e., the customer's side of the point of connection), unless such loss is due to the negligence of Company.

Company shall have the right to periodically review the customer's lighting equipment to verify that the rated power (kW) of the non-metered fixtures is consistent with the Company's records.

PAYMENT: Refer to Payment Policy Rate Schedule, Rate Designation M-62N, any superseding amendments, or other provisions allowed by law.

REGULATIONS: The Company's General Rules and Regulations, on file with the Commission, continue to be applicable to service under this tariff.

ADJUSTMENT FOR MUNICIPAL PAYMENTS: Bills under this rate schedule may be subject to adjustment for certain payments to municipalities as provided in the General Rules and Regulations.
