3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages.

Some features included in certain Local Service Packages may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package that is available in a given market depending on network availability or configuration.

Anonymous Call Rejection

Allows customer to automatically reject all calls that have been marked anonymous by the calling party. The call is routed to a denial announcement and subsequently terminated.

Blocking Services.

Blocking Services prevent certain call types from being completed. Blocking service examples include blocking outgoing 10XXX1+ or 900 or 976 calls.

Call Forwarding Busy/Don't Answer/Variable

Call forwarding is the ability to forward an incoming call to a preselected station if the called station is unable to receive the call. "Call forwarding busy" will forward the call if the called station is in use; "call forwarding don't answer" will forward the call after a predetermined number of rings; "call forwarding variable" will forward the call regardless of the status of the called station. For Business customers, Call Forwarding Busy/Don't Answer options are only available as optional services to a location at which the customer also currently purchases Voice Mail from McLeodUSA.

Call Block

Allows customer to block incoming calls from up to a maximum of fifteen telephone numbers.

(T)

Call Trace

Permits the tracing of the last call received and holds the results for later use by an authorized law enforcement agency. Results of call trace will be provided only to appropriate law enforcement personnel, and not to the customer.

Call Transfer

The ability to forward a call in progress to another station.

3.0 Description of Services Offered

3.1 Local Service (cont'd)

3.1.4 Description of Features Included In Certain Local Service Packages (cont'd)

Repeat Dialing

Allows a customer to dial a code that will cause the feature to automatically redial the last number the customer dialed. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the customer when the called number becomes available. This service is available on a usage or subscription basis.

(T)

Hunting

Hunting is the ability to forward an incoming call to the next number in a hunting group if the called number is busy.

Circular Hunt is an option of Hunting service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached. The rates and charges for Circular Hunt are in addition to the rates and charges for Hunting Service.

Preferential Hunt is an option of Hunting service that allows for calls to a specific number (other than the first number) within a hunt group to hunt over a unique sequence of lines within the hunt group. The Preferential Hunt sequence is different than that encountered when a caller dials the first telephone number in a hunt group.

Call Return

The customer does not have to know the number of the calling party. If the calling party's number is blocked by the calling party, the service will not return the call.

(T)

No Solicitation

Allows a customer to deter sales and telemarketing calls received by the customer. This is accomplished via a recorded message which informs the caller that the customer does not accept telephone solicitations, and asks solicitors to hang up and to place the called party on the solicitors "do-not-call" list. No Solicitation automatically screens calls between the hours of 8:00 A.M. until 9:00 P.M. daily. A caller may press one, or stay on the line to complete the call connection.

3.5 Long Distance Interexchange and 800 Services

3.5.1 Commercial Switched Outbound ("1+")

Switched outbound services provide direct dialed ("1+") long distance services to commercial Subscribers. Subscribers may also access McLeodUSA's services by dialing "10XXX." Subscribers access McLeodUSA's services through switched access origination.

(M)(N)

3.5.2 Commercial Switched 800/888/877 Inbound

Switched 800/888/877 provides an inbound toll-free calling service to commercial Subscribers. Subscriber is billed for each toll-free call, rather than the call originator. Calls terminate to Subscriber via switched access lines. Customer may be billed a monthly recurring charge. Inbound toll free intraLATA calls or inbound toll free instate interLATA calls where McLeodUSA may or may not be the responsible organization and where an interexchange carrier, or an entity other than a local exchange carrier, is not involved in the switching and transport of those calls between the calling party and McLeodUSA switching center, shall be subject to the rates for inbound toll free calling as published herein.

3.5.3 Commercial Dedicated Outbound (1+)

Dedicated outbound services provide direct dialed ("1+") long distance services to commercial Subscribers. Subscribers may also access McLeodUSA's services by dialing "10XXX." Subscribers access McLeodUSA's services through dedicated access origination.

3.5.4 Commercial Dedicated 800/888/877 Inbound

Dedicated 800/888/877 provides an inbound toll-free calling service to commercial Subscribers. Subscriber is billed for each toll-free call, rather than the call originator. Calls terminate to Subscriber via dedicated access lines. Inbound toll free intraLATA calls or inbound toll free instate interLATA calls where McLeodUSA may or may not be the responsible organization and where an interexchange carrier, or an entity other than a local exchange carrier, is not involved in the switching and transport of those calls between the calling party and McLeodUSA switching center, shall be subject to the rates for inbound toll free calling as published herein.

(Previous Long Distance Packages are grandfathered and moved to Section 6.23)

(N)

3.0 Description of Services Offered (cont'd)

3.5 Long Distance Interexchange and 800 Services (cont'd)

3.5.5 800/888/877 Inbound with PIN (M)(N)
800/888/877 Inbound with PIN provides customers the opportunity to phone a predesignated number using a company 800/888/877 with a four-digit PIN assigned by the company. Calls are billed in full minute increments with a one-minute minimum.

3.5.6 Complex Routing
A variety of routing options are available to subscribers.
Geographic Blocking provides the end user with the ability to block toll-free calls from specific area codes.
800 Geographic Routing provides the end user with the ability to route calls to a predetermined location based on originating area code.
800 Number Screening provides the ability to route calls to a predetermined location based on originating NPA or NPA/NXX, LATA or ANI.
8XX Blocking provides the ability to allow or disallow based on info digits.
Percent Call Allocation provides end users the ability to route calls to multiple call centers based on a predetermined percentage of calls received.
Time-of-Day Routing provides end users the ability to route calls to a predetermined location based on the time of day the call originates.
Toll-Free Account Codes allows the subscriber to process the toll-free call by entering a specific or valid account code.

3.5.7 DID DNIS
DID DNIS allows for the Subscriber to translate DID numbers to a customer specified digit translation. (N)

3.5.8 Charges Based on Duration of Use (M)
(T)

Each call is rated and billed in whole cents according to the following conventions:
For any long distance services offered by McLeodUSA if the computed charge for a call includes a fraction of a cent, the fraction is rounded up to the next whole cent.
Exceptions. Special rounding arrangements may be made through contractual arrangements.

(Section 3.5.1 is grandfathered and moved to section 6.18)

(Previous Long Distance Packages are grandfathered and moved to Section 6.23) (N)

3.0 Description of Services Offered (cont'd)

3.7 Promotional Offerings

McLeodUSA may from time to time engage in special promotions of limited duration. These promotions may be in the form of waiver or reduced recurring and nonrecurring fees, lowered usage charges, or other actions designed to attract new Customers or to increase existing Customer awareness of a particular service. All promotions will be offered on a non-discriminatory basis to eligible Customers.

3.8 Individual Case Basis (ICB) and Term and Volume Discounts

McLeodUSA may offer individualized arrangements on a case-by-case basis where necessary to meet prices, terms, or conditions of service offered by competitors. In such cases, the prices offered by McLeod shall not exceed the prices for similar services contained in this tariff. In addition, a Customer signing a term service agreement to purchase certain term discount eligible services from McLeodUSA are eligible for a Term and Volume Discount. The Term and Volume Discount percentage may change from month to month if the Customer's monthly volume of charges for certain eligible services increases or decreases. Only eligible services purchased under a single service agreement count towards the applicable Term and Volume Discount. Discounts do not apply to any non-recurring charges, federal, state and local use, excise, sales and privilege taxes; applicable surcharges related to universal service programs, emergency telephone service (911/E911), telecommunications relay service for the hearing impaired; payphone surcharges; and other similar surcharges for required programs.

3.9 Remote Call Forwarding

Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call. Remote Call Forwarding service is offered subject to availability of suitable facilities. Remote Call Forwarding service is not offered where the terminating station is a coin telephone. McLeodUSA will not provide identification of the originating telephone number to the RCF Customer.

4.0 Rates and Charges (cont'd)

4.1 Nonrecurring Charges (cont'd)

4.1.9 Payphone Surcharge

Payphone Surcharge \$0.70 / per call

Payphone Surcharge is applied to all intrastate, interstate and international calls that originate from any domestic pay telephone used to access Company services. This charge is in addition to standard tariffed usage charges and surcharges.

4.1.10 Order Charge

This charge will apply per order on POTs and IA for the following actions: ANI Swap, business to residential conversion, residential to business conversion, Change of Ownership, Add/Change/Remove Directory Listing, Add/Change/Remove Blocking Features, Add/Change/Remove Features, Add/Change/Remove Voicemail, MEL install, POTs to MEL conversion, package change, changes to seasonal lines.

This charge will also apply per order on Toll Free ANIs for, but not limited to, the following actions: Adding a Toll Free number, porting a Toll Free number, disconnecting a Toll Free number, changes such as area of service, POTS change, PIN change, blocking certain numbers or allowing certain numbers.

Business	\$20.00 / per order
Residential	\$20.00 / per order

6.19 Access Recovery Surcharge and Account Service Fee (moved from Sheets 33, 64.1, and 64.2) (N)

Effective January 1, 2009, these fees will no longer apply to new customers. (N)

A. Descriptions (M)

An Account Service Fee will be applied to bills that do not meet a minimum 'total current charges'. See Account Service Fee listed in Section 4.1 for the applicable rates. Also, an Access Recovery Surcharge, which is used to offset increased costs associated with gaining access to incumbent networks, will be assessed monthly. This fee is not a tax or charge imposed by a government entity. The ARS is based on the percentage of the total monthly recurring charges. See Access Recovery Surcharge listed in Section 4.1 for the applicable rates.

Account Service Fee

Residential: \$2.99 per account Business: \$4.99 per account

The monthly Account Service Fee is assessed on accounts each month when the "total current charges" are below \$10.00 for the month.

Access Recovery Surcharge:

The Access Recovery Surcharge (ARS) is not a fixed monthly recurring charge. Rather, the ARS is a percentage of the customer bill based on the total amount spent on services, less any taxes, surcharges or other non-qualifying fees. This fee is used to offset increased McLeodUSA expenses caused by a regulatory change. Specifically, the charge will recover the costs related to recent increases in our costs of gaining access to incumbent networks. This fee is not a tax or charge imposed by a government entity. The ARS is calculated by application of a percentage to each customer's total monthly recurring charges for all services (MRC). The ARS percentage to be applied will be determined by the customer's total MRCs on its monthly invoice, based on the schedule outlined below.

Customer Account Monthly Recurring ARS

<u>MRC Revenue Tier</u>	<u>Charge %</u>
\$0.00 to \$200.00	10.00%
\$200.01 to \$400.00	9.00%
\$400.01 to \$500.00	8.00%
\$500.01 to \$1000.00	5.00%
\$1,000.01 to \$1,500.00	4.00%
\$1,500.01 to \$2,500.00	3.00%
\$2,500.01 to Unlimited	0.00%

6.0 Grandfathered Services/Products (cont'd)

6.20 Local Business Packages and Products (moved from Sheets 47, 47.1, 47.2, 69, 70, and 99) (N)

Effective January 1, 2009, these services are no longer available to new customers or to existing customers at new locations. Existing customers will be able to request changes to services, provided the request does not conflict with state rules, regulations or laws. (N)

A. Descriptions (M)

Business Package A - OneLine PreferredSM Package

Business Package A consists of local line switched service and a Primary Directory Listing.

Business Package C - Premium Preferred[®] Package

Business Package C consists of local line switched service, Call Waiting, Three Way Calling, Call Forward Variable/Busy/Don't Answer, Called ID, Anonymous Call Rejection, Call Waiting ID, Speed Call 30, Call Transfer, Remote Access Call Forwarding and a Primary Directory Listing.

Business Package E - Key System Preferred[®] Package

Business Package E consists of local line switched service, Caller ID, Call Transfer, Hunting and a Primary Directory Listing.

Business Package F - Preferred Advantage[®] Plus Package

Existing Customers currently subscribing to grandfathered non-Preferred Advantage products are eligible to subscribe to Preferred AdvantageSM Plus ("PA Plus") local line packages when renewing their service agreement with McLeodUSA by executing the Preferred Advantage agreement. PA Plus packages may include substitute or alternative line features currently purchased by the Customer that will permit them to migrate to a Preferred AdvantageSM service agreement with little or no modification to the Customer's current service configuration. Each Preferred AdvantageSM Plus local package will be priced at the same rate as the standard Preferred Advantage local package with a comparable number or type of features.

Business Package G - Simple Preferred[®] Select Package

Business Package G consists of local line switched service, Wire Care*, and a choice of three (3) of the following features: Call Waiting, Call Waiting ID, Caller ID Name and Number, Call Forward Variable, Call Forward Busy, Call Forward Don't Answer, Call Transfer, Anonymous Call Rejection, Call Screening, Continuous Redial, Basic Hunting, Last Call Return/Callback, Remote Access to Call Forward, Speed Call 30 and Three Way Calling.

Business Package H - Value Preferred[®] Select Package

Business Package H consists of local line switched service, Wire Care*, and a choice of seven (7) of the following features: Basic Voice Mail, Call Waiting, Call Waiting ID, Caller ID Name and Number, Call Forward Variable, Call Forward Busy, Call Forward Don't Answer, Call Transfer, Anonymous Call Rejection, Call Screening, Continuous Redial, Basic Hunting, Last Call Return/Callback, Remote Access to Call Forward, Speed Call 30 and Three Way Calling.

Note: Some features may not be available in all areas.

* Asterisk denotes non-regulated services. (M)

6.0 Grandfathered Services/Products (cont'd)

6.20 Local Business Packages and Products (cont'd)

A. Descriptions (cont'd)

Business Package I - Preferred Advantage® Unlimited

Business Package I consists of local line switched service, and a choice of any of the following features: Basic Voice Mail*, Call Waiting, Call Waiting ID, Caller ID Name and Number, Call Forward Variable, Call Forward Busy, Call Forward Don't Answer, Call Transfer, Anonymous Call Rejection, Call Screening, Continuous Redial, Basic Hunting, Last Call Return/Callback, Remote Access to Call Forward, Priority Call, Speed Call 30 and Three Way Calling. This package is only available when combined with the Unlimited Long Distance and no other long distance plans are available with this Business Package. This package is only available when McLeodUSA provides services using its own local switching facilities (see 'Platform' in section 6.20(C)).

(M)

Business Package J - Preferred Advantage® Unlimited Highspeed

Business Package J consists of local line switched service, and a choice of any of the following features: Basic Voice Mail*, Call Waiting, Call Waiting ID, Caller ID Name and Number, Call Forward Variable, Call Forward Busy, Call Forward Don't Answer, Call Transfer, Anonymous Call Rejection, Call Screening, Continuous Redial, Basic Hunting, Last Call Return/Callback, Remote Access to Call Forward, Priority Call, Speed Call 30 and Three Way Calling. This package is only available when combined with the Unlimited Long Distance and Business ADSL service. No other long distance plans are available with this Business Package. This package is only available when McLeodUSA provides services using its own local switching facilities and where McLeodUSA offers DSL service (see 'Platform' in section 6.20(C)).

(T)

(T)

B. Rates

Rate Table 1.1 Business Packages

A Local Line Price Adjustment surcharge of \$7.00 is applied to each business local line that was established prior to June 13, 2005 and is serviced out of a Resale CLLI (see Section 6.20(C)).

(M)(T)

6.0 Grandfathered Services/Products (cont'd)

6.21 Local T1/PRI ISDN Packages (moved from Sheets 53, 54, 85, 86, 87, 87.1, 87.2, 87.3, 88, 89, 89.1, 89.3, 89.4, 89.5, 92, 92.1, and 92.2) (N)

Effective January 1, 2009, these services are no longer available to new customers or to existing customers at new locations. Existing customers will be able to request changes to services, provided the request does not conflict with state rules, regulations or laws. (N)

A. Descriptions (M)

Local T1 Service

The Local T1 product provide high capacity local access services, with up to 24 channels. The T1 can be configured for either two-way trunk side service (Standard Trunks), or one-way DID (DID capable) service. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Rate elements are a Module Rate Element, a Local Distribution Channel Rate Element, Optional Elements, and applicable surcharges and taxes.

Dynamic T-1

The Dynamic Local T1 product terminates into a customer-provided PBX or hybrid system, via a customer-provided DTI or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

Dynamic PRI

This product is a facility-based Local PRI product. It provides businesses advanced ISDN PRI capabilities for a variety of switched and dedicated communications applications. ISDN_PRI consists of twenty-three 64 Kbps B channels and one 64 Kbps D channel. The D channel is used for signaling and control of the B channels. Any spare bandwidth that is not used for voice trunks, can be used to provide point-to-point data products. The Dynamic PRI terminates into a customer-provided PBX or hybrid system, via a customer-provided Digital Trunk Interface (DTI) or channel bank. When DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company.

PRI

This product, ISDN-PRI, provides voice and data communications capabilities via a 1.544 Mbps central office termination and a 1.544 Mbps end user's premises. The product also provides high capacity local access services, with up to 24 channels of which 23 channels are 64 Kbps B channels and one channel is a D channel at 64 Kbps. The D channel is used for signaling and control of the B channels. When DID service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. Rate elements are an ISDN Rate Element, a Local Distribution Channel Rate Element, Optional Elements, and applicable surcharges and taxes. (M)

B. Rates

Dedicated Local Preferred T1 Service -
Rate Table 7.1.1: On-Switch Service

(M)

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for "Preferred AdvantageSM Inter/IntraLATA Long Distance with Local" long distance rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call.

Monthly recurring prices include up to 250 Direct Inward Dial (DID) numbers, with additional DID numbers in sequential blocks of 20 or non-sequential singles, at the Non-Recurring and Monthly Recurring rates below. Also included in the monthly recurring price are applicable End User Common Line (EUCL), Local Measured Service (LMS), Primary Interexchange Carrier Charges (PICC), and Mandatory Extended Area Service (EAS) charges.

<u>Miscellaneous</u>	<u>Non-Recurring</u>	<u>Monthly Recurring</u>
Change Order, per order	\$50.00	N/A
Conversion from T1 to PRI	Equal to Service Description Non-Recurring charge	

Installation charges listed as Service Description “Non-Recurring” apply for each new T1 service configuration. If the customer were to change physical locations and need new service at the new location, these installation charges would also apply.

Change Order charge applies for each change request submitted after installation of the service.

Conversion of service charge from T1 to PRI applies when the facility type is changed to PRI.

The charge is equivalent to the Installation Non-Recurring charge.

Other state and federal taxes and regulatory surcharges are applicable and are to be billed separately.

Dedicated Local PRI Service Rate Table 7.2.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate “D” channel, typically the 24th trunk on the digital T1 facility. The customer shall be eligible for “Preferred AdvantageSM Inter/IntraLATA Long Distance with Local” long distance rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service.

Dedicated Local PRI Service: On-Switch Service (cont'd)

(M)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Rate Table 7.3: Preferred AdvantageSM Integrated Access Trunk

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for PA Inter/Intrastate LD with Local and PA Inter/Intrastate Toll Free Service with Local pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer’s premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service.

6.21 Local T1/PRI ISDN Packages (cont'd)

B. Rates (cont'd)

Rate Table 7.3: Preferred AdvantageSM Integrated Access Trunk (cont'd)

(M)

For this product, no separate charges apply for an End User Common Line (EUCL) charge, Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

Additional voice and data channels can be added either at the time of installation or during the term of the Service Agreement, and added channels will have a term commitment that terminates at the same time as the Service Agreement. No more than 14 additional channels (13 additional channels if the facility is a PRI facility) can be added to a single base package. No more than 1 trunk group can be associated with a PRI facility, and no more than 7 trunk groups can be associated with a T1 facility.

All or part of nonrecurring charges for this product may be waived in the case of customers making a minimum term commitment of (1) year and taking into consideration the number of channels maintained by Customer. Customers may agree to additional pricing for inside wiring work. Term and volume discounts may also be applied.

Contract termination penalties as provided in the customer's Service Agreement will apply in the event that the customer does not maintain the Base Package for the term of the agreement. If the customer discontinues Integrated Access service with the company, McLeodUSA will retrieve the IAD and battery pack that had been deployed for the customer's use. The customer will incur additional charges in the event that the customer does not allow for the prompt retrieval of the IAD upon termination of service.

<u>Nonrecurring Charges</u>	<u>12 Month</u>	<u>24 Month</u>	<u>36 Month</u>

6.22 Preferred Advantage Calling Card and Preferred Advantage Conference Calling (moved from Sheets 54, 58, 58.1, 84, 92, 92.1 and 92.2) (N)

Effective January 1, 2009, these services are no longer available to new customers or to existing customers at new locations. Existing customers will be able to request changes to services, provided the request does not conflict with state rules, regulations or laws. (N)

A. Descriptions (M)

Calling Card

This service allows the Customer to make telephone calls from any non-Customer location such as a payphone by dialing an 800 access number and a personal identification number before dialing the telephone number of the called party. The charges resulting from use of the Calling Card are billed to the Customer's McLeodUSA account at the rates and charges set forth in the Rate Tables.

Preferred Advantage® Conference Calling

Conference Calling is the ability to have multiple parties listen and participate in meetings via telephone.

Anytime Conferencing

Anytime Conferencing Audio

Anytime Conferencing allows you to hold a conference call any time without operator assistance. Anytime Conferencing conference room is available 24/7 and can host up to 100 participants. Anytime Conference may be used with the Web Conferencing interface Conference Calling Control Panel to moderate a call, show a Power Point® presentation or share documents in a fully collaborative environment.

Anytime Conferencing with Web

Anytime Conferencing Anytime Conferencing Web enables a caller to share presentations, applications and documents on the Internet with other participants.

Basic Assisted and Event Conferencing

Basic Assisted

Basic Assisted provides minimal operator support. Basic Assisted Conference call is ordered for less than 45 participants. A live operator will answer to both the call organizer and participants, gather each participant's name and other information required and announces each participant as s/he is placed into conference. The operator may conduct a roll call and then turn the call over to the Chairperson. The operator is always available by pressing 'star, zero' (*0).

Event Conferencing

Event Conferencing is a professionally managed conference call, reserved in advance, and designed specifically for large event style conference calls or calls that require the personal touch of an operator.

Participants dial in from any location or the Event Conferencing team will dial out to participants. A dedicated operator manages the call from start to finish. (M)

6.22 Preferred Advantage Calling Card and Preferred Advantage Conference Calling (cont'd)

(M)

A. Descriptions (cont'd)

Preferred Advantage® Conference Calling (cont'd)

Standard Services available

With each of the two following standard services, clients have two options:

- **Attended Call:** Facilitator monitors the conference call to add any assistance that may be needed.
- **Unattended Call:** No facilitator is present, but a facilitator is available at any time by pressing *O on the phone.

Basic Assisted and Event Conferencing Products

Toll Free Meet Me

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. The conference fees are charged to the hosting organization.

Domestic Dial-Out

Conference Center facilitators dial-out to all participants prior to the scheduled conference. The hosting organization is charged the long distance and conference bridging fees.

Local Meet Me

Participants call a pre-determined toll free number at a specified time. A conference call operator will greet the participants and ask for the name of the conference chairperson. Participants will be placed on music hold or into the open conference until all parties have arrived. Once all parties have arrived, the conference will be turned over to the chairperson. Except for the LD toll charges, the conference fees are charged to the hosting organization. Each participant will be responsible for the long distance per minute charges that they incur while on the call.

Passcode

Passcode Conferencing provides an automated service that allows you to schedule a call in advance by speaking to a reservationist. Each time a call is scheduled, a new access number and room number is provided to you.

6.23 Long Distance Interexchange and 800 Services (moved from Sheets 59,) (N)

Effective January 1, 2009, these services are no longer available to new customers or to existing customers at new locations. Existing customers will be able to request changes to services, provided the request does not conflict with state rules, regulations or laws.

A. Descriptions (N)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of North Dakota. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. Usage charges are based on the duration and time of day of each call when applicable. (M)

Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. (M)

6.0 Grandfathered Services/Products (cont'd)

6.23 Long Distance Interexchange and 800 Services (cont'd)

A. Descriptions (cont'd)

(M)

McLeodUSA 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable.

Long Distance and Toll Free Packages consist of a bucket anytime minutes used by the Customer for outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute."

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL has 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA.

LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access provide switched inbound and outbound 1+ long distance services for Business Customers.

LD and Toll Free Select Plan w/o Local Access and LD and Toll Free Select Plan w/ Local Access provide switched inbound and outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage.

6.23 Long Distance Interexchange and 800 Services (cont'd)

A. Descriptions (cont'd)

(M)

Unlimited Long Distance provides switched outbound 1+ long distance in an unlimited minute usage to domestic and Canadian terminations per ANI per month. No auto-dialers, modems or call generation equipment of any kind is permitted. A threshold of 3,000 maximum minutes per ANI per month will be treated as an indication of call generation equipment usage. Usage that exceeds 3,000 minutes per ANI per month will be billed at \$0.12 per minute for all minutes that exceed the 3,000 minute threshold. Call details for minutes that exceed the 3,000 minute threshold will appear on the monthly invoice, and the customer may request the call detail for the minutes that fall below the 3,000 minute threshold. This package is only available when combined with the Preferred Advantage Unlimited package. No other local packages are available with the Unlimited Long Distance plan. This plan is only available when McLeodUSA provides services using its own local switching facilities.

Market Expansion Line (MEL)

MEL is a service whereby a call placed from an exchange access service to a MEL customer's telephone number (the forwarded-to location) is automatically forwarded by telephone company serving office equipment to the customer's remote location. Terminating stations must have incoming call capability. MELs are available when used in conjunction with long distance or 800 Service.

B. Rates

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'd to McLeodUSA for long distance service. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

The long distance service minutes included in the Long Distance and Toll Free plans apply to domestic intrastate calls, domestic interstate, extended calls (Alaska and Hawaii), NANP calls and to international calls as specified by McLeodUSA pursuant to federal regulation. All lines at a customer location must be PIC'd to McLeodUSA for long distance service package.

B. Rates (cont'd)

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL has 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA.

(M)

LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access provide switched inbound and outbound 1+ long distance services for Business Customers.

LD and Toll Free Select Plan w/o Local Access and LD and Toll Free Select Plan w/ Local Access provide switched inbound and outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. A "LD Shortfall Charge" equal to the difference between actual usage and \$50.00 will be assessed monthly, if applicable.

Rate Table 4.1.1: Dedicated Select LD and Toll Free Plan

This service is available to business customers that bill over 50,000 minutes of long distance usage per month (i.e., both inbound and outbound Long Distance) from McLeodUSA. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer has 3 months from the time of the DAL turn up to ramp up to 50,000 minutes per month usage on that DAL. After that period, Customer will be subject to a charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Rate Table 4.1.1: Dedicated Select LD and Toll Free Plan (cont'd)

(M)

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Long Distance rates for Dedicated Select LD and Toll Free Plan long distance service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 80% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 80% of the time to a LEC providing local service in an RBOC exchange. The toll free service is not available for any locations outside of the continental United States. Tailored Call Coverage and Route Overflow are available features.

Account Codes are available to provide customers auditing functionality for all long distance calls.

Per Minute Usage Rate LD:	\$0.0661
Per Minute Usage Rate Toll Free:	\$0.1080

Rate Table 4.1.2: LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access
