and that too is good. Can't say I miss all of the political messages on TV. And the deer season with a gun has opened. The bow season did not bother me. There were hunters out behind me, but, bow hunting is quiet. But this weekend was a busy one on our township and county roads. Pickups, hunters and more of the same were all over. Have not had that much traffic since who knows when?? The weather was so nice that it did bring out more and they did not mind standing by their vehicles visiting and having that much needed coffee. It was a whole different story from last year.

We cannot forget last week, the weekend and the coming week too. The weather that continues to be wonderful. But, we could pay later. Oh well, let us not worry about that, Enjoy now and it is making the winter shorter.

Did you all remember to replace the battery in your smoke alarms when we set the clocks back? Well, I have to admit I am one who missed that part of it. That is until my alarm started that annoying beep beep or whatever it says. Did not take me long to do the job and get rid of that noise for another year.

News is a little shorter this week and I am sure it is due to the nice weather, hunting and maybe a celebration or two on the completion of harvest. A lot of happy farmers out there and they have good reason to be as they wind up the harvesting of the crops.

Have a good week. I know I do not have to tell anyone to enjoy the nice weather.
