Re: Merricourt Wind Project

Dear Mr. Nitschke:

We are aware that the Commission solicited input from the Company at its meeting on March 18, 2011 regarding enXco's site permit for the Merricourt Project ("Project").

We have discussed with enXco our substantive concerns related to the Project, including avian concerns raised by the U.S. Fish & Wildlife Service ("Service"), and referenced in a December 2010 letter from the Service to the Commission. As we proceed to address these concerns, we intend to comply with the terms of the agreement. We are also aware that enXco has made certain representations about our agreement related to the Project in a filing captioned "Application for Reissuance of Certificate of Site Compatibility" in Case No. PU-08-932. NSP does not agree with all the contractual representations in that filing, but that is a matter for us to resolve with enXco.

Sincerely,

Laura Mc Carten

c: Steve Peluso (enXco Development Corp.)
