Mr. Darrell Nitschke, Executive Director
North Dakota Public Service Commission
600 E. Blvd., Dept. 408
Bismarck, ND 58505-0480

**Re: EDF Renewable Development, Inc. Name Change
(Case No. PU-08-932)**

Dear Mr. Nitschke:

Last month, EDF Renewable Development, Inc. ("EDF"), formerly known as enXco Development Corporation filed an application to amend its Certificate of Site Compatibility for Energy Conversation Facility Number 23 (the "Certificate"), originally issued June 8, 2011 in the above-referenced case for the Merricourt Wind Power Project. In follow-up conversations with the North Dakota Public Service Commission staff, EDF confirmed background information regarding the company's name change and filed corporate papers confirming the name change on October 10, 2014 in Case No. PU-14-743.

I am writing to request that upon approving EDF's requested amendment to the Certificate, the Commission issue the amended Certificate in the company's current name: EDF Renewable Development, Inc. Please do not hesitate to contact me if you have any questions.

Very truly yours,

Stoel Rives LLP
