RE: Discontinue Business - Request for Temporary Authority
Valley Grain Service

The Licensing Division received a Request to Discontinue Business from Valley Grain Service, Casselton, North Dakota. Valley Grain Service has created a new business corporation and will operate their grain business under the new entity. Valley Grain Service does not have any storage obligations.

Valley Grain Service asked that the request to discontinue business be approved effective January 1, 2009. I recommend the request be approved effective January 1, 2009, and that this action be noticed on the Commission's agenda.

Please sign and date this temporary authority request and return it to me.
