Re: Gas Meter Test Results  
Calendar Years 2007 & 2008

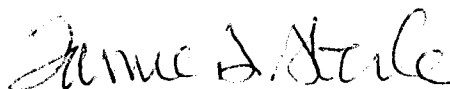

Great Plains Natural Gas Co. (Great Plains), a Division of MDU Resources Group, Inc., herewith submits the results of its gas meter testing program in compliance with North Dakota Administrative Code Section 69-09-01-16 and Great Plains Meter Testing Procedures Rate 101. Great Plains is submitting results for the period January 1, 2007 through December 31, 2008.

In accordance with the tariff referenced above, residential meters are tested once every twelve years and large meters every four years. Meters were removed as part of the ongoing business process but not as part of a random meter test. Any damaged or non-registering meters incapable of measuring gas accurately due to damaged indexes, mechanical malfunctions, or break(s) in the meter body are either retired or given a complete overhaul and re-tested before being placed back in service.

Great Plains' will be conducting a random sample of its residential and large meters beginning in 2009 that will be sufficient to meet the requirement of the testing intervals of once every twelve years and four years as noted above.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter attached hereto and returning the same in the enclosed self-addressed, stamped envelope.

Sincerely,

Tamie A. Aberle
