Re: 1/28/09 Consent Agenda, NSP Updated Cogeneration Rates
Case No. PU-09-13

On January 2, 2009, NSP filed its annual update of cogeneration and small power production rate schedules as required under the federal Public Utilities Regulatory Policies Act of 1979 (PURPA) and Commission rules. The filing includes revised tariff rates for NSP's Net Energy Billing Service, Purchase and Sales Billing Service, and Time of Day Purchase Service. NSP reports it does not presently have any customers taking service under any of these rate schedules.

Generally, all avoided energy and capacity payments have decreased while metering charges are unchanged.

I recommend the Commission approve the filing.
