

PUBLIC SERVICE COMMISSION

TESTING AND SAFETY DIVISION

MEMORANDUM

TO: Commissioners Cramer, Clark, and Kalk
Darrell Nitschke, Executive Secretary

FROM: Alan Woch, Director
Testing and Safety Division

DATE: February 20, 2009

RE: Federal/State 60105(a) Certification and Agreement For 2009

Attached for your review and approval is the 2009 federal/state 60105(a) Certification and Agreement.

This agreement, if approved and executed by the Commission, certifies the work performed in 2008, and contracts with the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration (PHMSA), to administer the Intrastate Gas Safety Program for the year of 2009.

There are two copies to be signed. One copy for PHMSA, U.S.D.O.T., in Washington, D.C., and the second copy for the Grants and Contracts file. In addition, one unofficial copy has been electronically submitted to Washington (electronic submittals are placed on file until executed copies are received).

I am placing this item on the March 11th regular consent agenda for your approval. If anyone has any questions or comments, please contact me before that date. Thank you!

AGM
