Attached for your review and action is a list of assigned central office codes for which Part 4 forms have not been received during the six-month period following the original code assignment effective date. This list

supplements the information provided to you in previous months.

Receipt of the Part 4 form indicates that the code holder has placed the assigned central office code in service. The Federal Communications Commission's NRO order authorized state commissions to decide the disposition of these codes.¹ For example, you could instruct NANPA to reclaim these codes, or you could extend the time the service providers have to put the codes in service.

Please review the attached February 2009 Reclamation List and review the Central Office Code Reclamation State Processes posted on the NANPA web site (www.nanpa.com).

Per the Central Office Code Reclamation Management State Processes, please forward copies of all approved Part 4 forms to the NANPA Reclamation Group on or before the last business day of this month.

Should you have any questions, please direct them to the NANPA Reclamation Group at 571-434-5138.

Thank you,
Reclamation Department

On February 10, 2008 I received an email from the Reclamation Group, NANPA CO Code Administration, concerning 2 blocks of numbers requested by Midcontinent Communications — ND; one in each of the 534-Bottineau and 821-Walhalla exchanges. Midcontinent had not notification the numbering administrator whether the number blocks had been activated.

Midcontinent had activated the number blocks. I have subsequently received Midcontinent's paperwork (Part 4 forms) indicating that the number blocks have been activated. Unless Commissioners direct otherwise, I will forward the Part 4s to the NANPA CO Code Administration Reclamation Group on March 4 and will ask that they be accepted. I will then include an item on the March 11 consent agenda for the Commission to acknowledge the action.
