Subject: numbering issues

On February 10, 2008 I received an email from the Reclamation Group, NANPA CO Code Administration, concerning 2 blocks of numbers requested by Midcontinent Communications — ND; one in each of the 534-Bottineau and 821-Walhalla exchanges. Midcontinent had not notification the numbering administrator whether the number blocks had been activated.

Midcontinent had activated the number blocks. I have subsequently received Midcontinent's paperwork (Part 4 forms) indicating that the number blocks have been activated. Unless Commissioners direct otherwise, I will forward the Part 4s to the NANPA CO Code Administration Reclamation Group on March 4 and will ask that they be accepted. I will then include an item on the March 11 consent agenda for the Commission to acknowledge the action.
