Jody Felinczak,
The North Dakota Public Service Commission has received notice from Neustar Number Pooling that a Part 4 was not received from Bandwidth.com by the 8/8/09 due date for the 701-446-8 block of numbers in OCN 999E–Bandwidth.com–ND.

Please let us know soon whether Bandwidth.com has activated the block of numbers or whether the numbers can be reclaimed. If the block of numbers is activated, please email the Part 4 and we will forward it to Neustar.

Attached for your review and action is a list of assigned thousands-blocks for which Part 4 forms have not been received during the six-month period following the block effective date. This list supplements the information provided to you in previous months.

Receipt of the Part 4 form indicates that the assignee has placed the thousands-block in service. The FCC's NRO order authorized State Commissions to decide the disposition of these blocks. For example, you could instruct Number Pooling to reclaim these blocks, or you could extend the time the service providers have to put the blocks in service.

On or before the last business day of each calendar month, please update the attached list with one of the following categories:

Part 4 Received = Part 4 form has been received by the Commission

Pending = Investigation still in progress or extension granted by the Commission

Reclaim = Commission has concluded investigations and instructs Pooling to reclaim the block

Please forward the updated Reclamation List and copies of any received Part 4 forms to:
