Subject: Thousands Block Reclamation list_September 2009

Patrick Fahn
North Dakota Public Service Commission

Attached for your review and action is a list of assigned thousands-blocks for which Part 4 forms have not been received during the six-month period following the block effective date. This list supplements the information provided to you in previous months.

Receipt of the Part 4 form indicates that the assignee has placed the thousands-block in service. The FCC's NRO order authorized State Commissions to decide the disposition of these blocks. For example, you could instruct Number Pooling to reclaim these blocks, or you could extend the time the service providers have to put the blocks in service.

On or before the last business day of each calendar month, please update the attached list with one of the following categories:

Part 4 Received = Part 4 form has been received by the Commission

Pending = Investigation still in progress or extension granted by the Commission

Reclaim = Commission has concluded investigations and instructs Pooling to reclaim the block

Please forward the updated Reclamation List and copies of any received Part 4 forms to:

Kevin Gatchell

2 This is an 11-character descriptor of the switch provided by the owning entity for the purpose of routing calls. It is the 11-character COMMON LANGUAGE Location Identification (CLLISM) of the switch/POI shown on the Part 1A form.

3 A code or block for which local routing information has been input to the LERG Routing Guide and the carrier has begun to activate and assign numbers within the NXX code or NXX-X block to end users (FCC 00-104, ¶240). This form must be submitted to the PA within six months of the original effective date returned on the Part 3 and entered on the BCR/BCD screen in BIRDS or reclamation procedures will commence.

Note: State commissions may request proof from all block holders that an NXX-X block has been activated and assignment of the numbers has commenced 4
