

## MEMORANDUM

To: Commissioners Cramer, Clark and Kalk  
Fr: Jerry Lein  
Da: July 7, 2009  
Re: 7-8-09 Agenda Item TC-2 Briefing Memo – Bison Wind I Application  
Case No. PU-09-151

My review of the application for a certificate of site compatibility indicates that the requirements in the Commission's application guidelines have been addressed. Therefore, I recommend the application be deemed complete. However, there are some activities still underway:

1. Micro-siting: The company is providing preliminary turbine locations today and is further evaluating and refining those locations to provide final proposed sites prior to the hearing.
2. Wetlands Inventory: National Wetland Inventory data has been reviewed and field delineation is expected to be completed this summer and fall.
3. Class III pedestrian cultural resource survey: A class I file search and some Class II field work has been completed. A Class III pedestrian survey is expected to be completed this summer and fall.
