Mr. Bjella,

As you requested, the following items are attached that pertain to NOV 0903:

1. Staff's May 29, 2009 inspection report.
2. Staff's June 3, 2009 inspection report.
3. Staff field notes taken during the June 3rd inspection.
4. Two photographs taken during the June 3rd inspection that show the NOV/reclaimed area that was affected by the topsoil removal activities on May 29.

Copies of any field notes taken during the May 29th inspection will be provided to you when that inspector returns to the office. He is out the office today. The NOV 0903 area is not mentioned in any other inspection report.

I am also attaching copies of three e-mail messages that relate to the NOV and the attachment that was part of the e-mail message we received from Falkirk on May 27th.

1. The May 27th e-mail we received from Falkirk requesting approval to place stockpiles on a reclaimed area and to re-locate a soil stockpile. The electric document containing a Falkirk map of these areas is also attached.
2. Staff's May 28th e-mail with questions and concerns about the request to place stockpiles on the reclaimed area.
3. The May 29th e-mail staff received from Falkirk about the stripping of topsoil from the reclaimed area.

If you have any questions, please let me know.

With respect to Falkirk's request for formal hearing regarding NOV-0903, would you please provide me with complete copies of the Reclamation Division's inspection reports, including any notes or photographs taken during such inspections. Thank you.

Brian
