ORDER GRANTING TRADE SECRET PROTECTION

OCTOBER 10, 2012

On July 29, 2008, the attorney for each company indicated in each 2008 captioned case filed an application for each company for trade secret protection under North Dakota Administrative Code Ch. 69-02-09, asking the Commission to protect against public disclosure certain information filed by each company in compliance with the Commission's requirements regarding each company's annual Eligible Telecommunications Company report filing.

On July 27, 2009, the attorney for each company indicated in each 2009 captioned case filed a similar application relating to each company's 2009 filing.

On October 3, 2012, North Dakota Public Service Commission Staff filed and served its response to the requests, recommending the Commission approve the requests.

North Dakota Administrative Code § 69-02-09-04 requires that the Commission staff examine the information and application and make a recommendation to the Commission. Staff has reviewed the requests of the captioned companies for protection of information.

The companies asked the Commission to protect the following information from disclosure:

1. In the 2008 filings, specific 2007 construction and upgrade projects undertaken by each company to expand or improve service, and in the 2009 filings, similar relevant 2008 projects;
2. In the 2008 filings, construction, upgrade and maintenance projects planned for 2009, and in the 2009 filings, similar relevant projects;
3. In the 2008 filings, each company's 2007 and 2009 network and operating expenses and in the 2009 filings, similar information for 2008 and 2010.
4. In the 2008 filings, outage information for each company's 2007 outages over 30 minutes, including geographic area, start and end times, description, resolution and services affected, and in the 2009 filings, similar information for 2008.

The companies stated that the information they seek to protect is protected by the Federal Communications Commission (FCC) under federal rules. The companies also state that the information sought to be protected derives independent economic value from not being generally known to other persons, and disclosure could cause substantial harm to each company. Further, the companies assert that the information has not been previously disclosed.

North Dakota Century Code § 44-04-18.4(2) authorizes protection for commercial, financial, proprietary, and trade secret information if privileged and if the information has not been previously publically disclosed. N.D.C.C. § 44-04-18.4(1). Commercial and financial information can be protected from disclosure if the information has not been previously disclosed and disclosure would impair the Commission's ability to obtain similar information in the future or would cause competitive injury to the person providing the information. N.D.C.C. §§ 44-04-18.4(2)(a) and 44-04-18.4(2)(b). Proprietary and trade secret information can be protected when the information derives independent economic value from not being generally known to or readily ascertainable by other persons, and is the subject of reasonable efforts to maintain its secrecy. N.D.C.C. §§ 44-04-18.4(2)(c) and 44-04-18.4(2)(d).

Further, the financial information provided to the Commission is considered confidential by the FCC under 47 C.F.R. §§ 0.0457 and 0.0459. The FCC also considers information in outage reports to be highly sensitive and protects the information from public dissemination in the Freedom from Information Act. N.D.C.C. §44-04-18(1), as interpreted by the North Dakota Attorney General, allows a state agency to provide confidentiality protection of information if the information is specifically protected under federal regulation. The outage information is protected under federal regulation.

Order

The Commission orders:

1. The 2008 applications of each company identified in the respective captioned cases for protection of information is GRANTED;
2. The 2009 applications of each company identified in the respective captioned cases for protection of information is GRANTED.
