RE: Alltel Communications  
Annual Eligible Telecommunication Carriers  
Use of Federal Universal Service Support Certification

Dear Mr. Nitschke and Mr. Fahn:

Enclosed for filing is an Application for Trade Secret Protection by WWC Holding Co., Inc., a wholly-owned subsidiary of Alltel Communications, Inc.

Thank you for your attention to this matter.

Very truly yours,

  
Thomas D. Kelsch

## **I. INTRODUCTION**

WWC Holding Co. Inc. d/b/a Alltel Communications, LLC<sup>1</sup> (the “Company” or Alltel”), submits this Certification and Annual Report in compliance with the North Dakota Public Utilities Commission (“Commission”) Orders designating Alltel as an Eligible Telecommunications Carrier (“ETC”) and the Commission’s rules regarding the annual ETC certification and reporting process – NDAC §§ 69-09-05-12 et seq. Alltel respectfully requests the Commission to certify its eligibility for high-cost support from the federal universal service fund for calendar year 2010.

## **II. BACKGROUND**

The Commission has designated Alltel as a competitive ETC in certain non-rural wire centers served by Qwest Corporation,<sup>2</sup> and the full study areas of several rural telephone companies.<sup>3</sup> As an ETC, Alltel is required to and, therefore, provides the nine supported services, including:

- Voice grade access to the Public Switched Telephone Network;
- Local Usage;
- Dual tone multi-frequency signaling or its functional equivalent;

---

<sup>1</sup> Formerly named Alltel Communications, Inc. As of January 9, 2009 Cellco Partnership d/b/a Verizon Wireless acquired Alltel Corporation and its subsidiaries including WWC Holding Co., Inc. d/b/a Alltel Communications, LLC. *In the Matter of Applications of Cellco Partnership d/b/a Verizon Wireless and Atlantis Holdings LLC for Consent to Transfer Control of Licenses, Authorizations and Spectrum Manager and De Facto Transfer Leasing Arrangements*, WT Docket No. 08-95, File Nos. 003463892, et al., Memorandum Opinion and Order and Declaratory Ruling, FCC 08-258 (rel. Nov. 10, 2008) (*Merger Order*). In connection with the approval, the Department of Justice and the FCC have required Verizon Wireless to divest certain markets including those in North Dakota. A Management Trustee was appointed to manage the divested markets until they have been sold. *Merger Order*, Paragraphs 15, 19, 157-163, Appendix B. This filing is being made by Alltel, with respect to the Alltel markets in North Dakota that will be divested and which are currently managed by the Management Trustee.

<sup>2</sup> *Western Wireless Corporation Designated Eligible Telecommunications Application*, Case No. PU-1564-98-428, p. 24 (December 15, 1999) (“Non-Rural Order”)

<sup>3</sup> *Western Wireless Corporation Designated Carrier Application*, Case No. PU-1564-98-428, Order on Remand, p. 27 (October 3, 2001) (“Rural Order”); *WWC Holding Co., Inc. Designated Eligible Telecommunications Carrier Application*, Case No. PU-2077-03-636, p. 8, (February 12, 2004) (“Additional Rural Areas Order”)

- Single party service or its functional equivalent;
- Access to 911 or E911;
- Access to operator services;
- Access to interexchange services;
- Access to directory assistance; and
- Toll limitation for qualifying low-income customers.

A complete listing of the areas in which Alltel has been designated as an ETC, and is requesting federal universal service support, is contained in **Exhibit A** (“Designated Areas”).

### **III. ALLTEL’S ANNUAL REPORT**

NDAC § 69-09-05-12.1 requires a common carrier previously designated by the Commission as an ETC to annually report certain additional information no later than August 1 of each calendar year. Alltel respectfully submits the following information in satisfaction of the Commission’s annual reporting requirement.

#### **A. Progress Report on its Service Improvement Plan**

NDAC § 69-09-05-12.1(1) requires an ETC to file a progress report on its Service Improvement Plan. Attached **Confidential Exhibit B-1** is the comprehensive progress report identifying Alltel’s investments and expenditures on a wire-center by wire center basis for calendar year 2008, including a map detailing Alltel’s progress toward meeting its plan targets. In addition to identifying the actual investments and expenditures incurred, the progress report also identifies the actual amount of universal service support received by Alltel during calendar year 2008.

Further, in accordance with the above rule, Alltel has also developed an updated two-year plan that describes with specificity the proposed improvements or upgrades to its network serving its North Dakota Designated Areas. Alltel’s proposed Two-Year Service Improvement Plan is attached as **Confidential Exhibit B-2** (“Service Improvement Plan”). The Service Improvement Plan includes all information required by NDAC § 69-09-05-12.1(1) for calendar

years 2009 through 2010. The projected expenditures in the Service Improvement Plan are based on the assumption that Alltel will receive the same amount of federal high-cost universal service support during the calendar year 2009 and beyond that the company received in 2008. Beyond 2009, it is difficult, if not impossible, for Alltel to predict with any amount of certainty, how much the Company may receive in federal universal service support. There are various factors that affect the total amount of support Alltel can be expected to receive, including, but not limited to, the per line support that is available, federal policy changes, Universal Service Administrative Company (“USAC”) reconciliations, and other factors beyond Alltel’s control. If actual receipts are affected, Alltel reserves the right to modify its capital and operating expenditures in the Company’s ETC service area.

**B. Network Outages In North Dakota Designated Areas**

NDAC § 69-09-05-12.1(2) requires an ETC to annually report network outages within its Designated Area. NDAC § 69-09-05-12.1(2) specifically requires:

detailed information on any outage, as that term is defined in 47 C.F.R. § 4.5, of at least 30 minutes in duration for each service area in which an eligible telecommunications carrier is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affect (a) at least ten percent of the end users served in a designated service area; or (b) a 911 special facility, as defined in 47 C.F.R. § 4.5(e). Specifically, the eligible telecommunications carrier’s annual report must include information detailing: (a) the date and time of onset of the outage; (b) a brief description of the outage and its resolution; (c) the particular services affected; (d) the geographic areas affected by the outage; (e) steps taken to prevent a similar situation in the future; and (f) the number of customers affected.

This information, for the time period January 1, 2008 through December 31, 2008,<sup>4</sup> is contained within **Confidential Exhibit C**. Alltel has compiled and reported information for all

---

<sup>4</sup> Neither NDAC § 69-09-05-12.1(2) nor FCC Rule 54.209(a)(2) establishes the time period to be covered by an outage report filing. Alltel has adopted January 1 through December 31 as an appropriate time period for the report.

outages, as defined in NDAC § 69-09-05-12.1(2) in its North Dakota Designated Area – Study Area Code 389001. The information includes any outage that may potentially affect at least ten percent (10%) of Alltel’s customers in the Designated Areas or an outage of a 911 facility. The particular services affected by an outage is dependent upon the capabilities of the particular facility affected by the outage. Generally, a cell site or switch outage will affect all services provided by the cell site or switch, including voice, data and/or 911 services. The information relating to the number of customers affected by an outage is estimated based on the number of customers with a billing address in each affected wire center as of December 31, 2008.

The steps taken by Alltel to prevent a similar outage situation in the future will vary based on a determination of the cause of the outage. Each network outage is examined on a case by case basis. The outage is analyzed for the particular cause of the outage. When the outage is due, for example, to equipment failure, the equipment is replaced or repaired and tested for proper performance. Additionally, the manufacturer or vendor is notified if the failure appears to be in the design or manufacture of the equipment. If the vendor or manufacturer fails or refuses to remedy the deficiency then a replacement source is determined. When the outage is due to, for example, weather or other natural occurrence, the probability of a repeat occurrence is considered and evaluated and is considered in planning the repair, replacement or rebuild of the equipment or location. Outages due to human error or a faulty process or practice will result in appropriate reevaluation of the source of error and the need to either correct, discipline or revise the person or practice, as applicable. The outages reported above were not determined to require extraordinary measures other than application of the above.

**C. Unfulfilled Requests For Service**

NDAC § 69-09-05-12.1(3), requires an ETC to annually report the number of requests for service from potential customers within the ETC’s designated service areas that were unfulfilled

during the past year. The filing must also detail how the ETC attempted to provide service to those potential customers. The required information concerning Alltel's unfulfilled requests for service within its Designated Areas from January 1, 2008 through December 31, 2008 is contained in **Confidential Exhibit D**.

**D. Complaints Per 1,000 Handsets Or Lines**

NDAC § 69-09-05-12.1(4), requires an ETC to make an annual report of the number of complaints per 1,000 handsets or lines. The number of written and oral complaints per 1,000 handsets, throughout the state of North Dakota, that Alltel received from its customers to its executive complaint department, the Commission, the Federal Communications Commission ("FCC"), the North Dakota Attorney General, Better Business Bureau or similar third party consumer agency between January 1, 2008 and December 31, 2008 is 0.4605%. The percentage of complaints is calculated based on the number of subscribers served by Alltel throughout the state of North Dakota as of December 31, 2008.

**E. Certification Regarding Applicable Service Quality Standards And Consumer Protection Rules**

NDAC § 69-09-05-12.1(5) requires an ETC to certify that it is complying with applicable service quality standards and consumer protection rules. The FCC found that a wireless carrier's compliance with the CTIA Consumer Code for Wireless ("CTIA Code") satisfies this requirement. During 2008, Alltel was a compliant signatory to the CTIA Code. Therefore, Alltel certifies that it is complying with applicable service quality standards and consumer protection rules.

**F. Certification Regarding Its Provision Of A Comparable Local Usage Plan**

Alltel certifies that it is offering a local usage plan comparable to the incumbent LEC, in the relevant service areas, as required by NDAC § 69-09-05-12.1(7).

**G. Certification Regarding The FCC's Ability To Provide Equal Access**

Alltel certifies that the FCC may require it to provide equal access to long distance carriers within its Designated Area in the event that no other ETC is providing equal access as described in NDAC § 69-09-05-12.1(8).

**H. Certification Regarding Emergency Functionality**

NDAC § 69-09-05-12.1(6) requires an ETC to certify that it is able to function in emergency situations. Alltel provides the following information to certify and demonstrate its ability to remain functional in emergency situations. Alltel's network is designed to be able to remain functional in emergency situations. Alltel has reasonable amounts of back-up power to provide functionality without an external power source, and, in many areas, has the ability to reroute traffic around damaged facilities and manage traffic spikes resulting from emergency situations. Alltel has deployed fixed and portable back-up power generators at various locations throughout its network that can be deployed in emergency situations. These back-up power generators are capable of keeping a cell site up and running until power is restored to the cell site, a portable generator is moved to the site, system changes are made to reroute traffic or a cell on wheels ("COW") is deployed. Alltel tests its back-up power generators regularly to ensure functionality. Alltel is also capable of rerouting traffic around damaged or out-of-service facilities by changing call routing translations as needed. Alltel is generally able to deploy COWs as temporary cell sites when existing facilities are damaged or out-of-service for longer periods of time. Further, by changing call routing translations or deploying COWs, Alltel is generally able to manage traffic spikes throughout its network. As a long-term solution for managing increased traffic levels and traffic spikes, Alltel may increase capacity at its cell sites, switches and transport facilities. Alltel certifies that it is able to function in emergency situations.

**IV. CONCLUSION**

Based on the foregoing information, WWC Holding Co., Inc. d/b/a Alltel Communications, LLC respectfully requests the Commission to certify to the FCC and USAC by October 1, 2009, its eligibility to receive federal universal service support for calendar year 2010 in accordance with 47 C.F.R. §§ 54.313 and 54.314.

WWC Holding Co., Inc. d/b/a Alltel  
Communications, LLC

**BEFORE THE NORTH DAKOTA PUBLIC UTILITIES COMMISSION**

In the Matter of Annual Eligible  
Telecommunications Carriers (ETCs) Use of  
Federal Universal Service Support

**CERTIFICATION**

The undersigned, Barbara Bonds, does hereby certify as follows:

1. I serve as Trust Counsel for the Management Trust of Alltel Communications, LLC ("Alltel").
2. Alltel has been assigned Study Area Code 389001 by the universal Service Administrative Company ("USAC") in the State of North Dakota.
3. This Annual Report and Certification is submitted pursuant to NDAC § 69-09-05-12 et seq. and for state certification by the North Dakota Public Utilities Commission of in accordance with 47 C.F.R. §§ 54.313 and 54.314.
4. I have reviewed Alltel's ETC Certification and Annual Report
5. Consistent with 49 U.S.C. § 254(e) and FCC Rules 54.313 and 54.314, Alltel certifies that all federal high-cost universal service support received will be used only for the provision, maintenance and upgrading of facilities and services for which the support is intended.
7. The facts stated therein are true and correct to the best of my present knowledge, information and belief.

  
\_\_\_\_\_  
Barbara Bonds

Subscribed and sworn to before me  
this \_\_\_\_\_ day of July 2008.
