Case No. PU-09-587

**NOTICE OF FILING AND NOTICE OF HEARING
December 31, 2009**

On October 6, 2009 and on December 14, 2009, Minnesota Power, an operating division of Allete, Inc., (Allete) filed an application for a waiver of procedures and time schedules, a corridor certificate and a route permit to authorize construction of 22.1 miles of 230 kV electric transmission line and associated facilities in Morton and Oliver Counties of North Dakota, as shown on the attached map.

Minnesota Power requests the Commission waive procedures and time schedules set forth in North Dakota Century Code chapter 49-22 and North Dakota Administrative Code article 69-06 to allow for a single consolidated application for corridor certificate and route permit and to hold a combined hearing on the waiver request and application for corridor certificate and route permit.

A **Public Hearing** on the application is scheduled to begin **February 1, 2010, at 10:00 a.m. CST, at the Oliver County Court House, 115 Main Street, Center, North Dakota 59503**. The issues to be considered are:

1. Will the location, construction, and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?
4. Is it appropriate for the Commission to waive procedures and time schedules as requested, including the request for a single consolidated application for corridor certificate and route permit?
