Prudence - Bay Front  
Application  
Case No. PU-09-659  
NOTICE OF OPPORTUNITY  
FOR HEARING  
November 25, 2009**

On September 23, 2009, Northern States Power Company (NSP) filed an application for an Advance Determination of Prudence for its proposed 20 MW Bay Front Project (Project) located in northern Wisconsin. The Project will consist of installing a biomass gasification system to convert waste wood to synthetic gas to use for electric power generation. The issue to be considered is whether NSP's proposed investment in the Project is prudent. Those interested are invited to comment on the application by writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearings must be received by January 11, 2010. If deemed appropriate, the Commission can determine these matters without a hearing. For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify Darrell Nitschke, Executive Secretary, at least 24 hours in advance.

**Notice of Intent To  
Amend the State  
Implementation Plan For  
Air Pollution Control  
Relating to the Reduction  
of Regional Haze**

North Dakota Department of Health will hold a public hearing to address proposed changes to the State Implementation Plan (SIP) for the Control of Air Pollution for the State of North Dakota which address Regional Haze in the Federal Class I areas.

**Environmental Training  
Center**  
2639 East Main Avenue  
Bismarck, ND  
January 7, 2010  
9:00 a.m. CST

A copy of the proposed SIP revision may be viewed at the Department's website at [www.ndhealth.gov/AQ/Region1Haze/](http://www.ndhealth.gov/AQ/Region1Haze/). A copy of the proposed SIP revision may be obtained by writing to the North Dakota Department of Health, Division of Air Quality, 918 E Divide Avenue, Second Floor, Bismarck, ND 58501-1947 or calling (701)328-5188. Written comments may be submitted to the above address from December 8, 2009 through January 8, 2010. The SIP revision addresses requirements on sources to reduce regional haze (visibility impairment) in Theodore Roosevelt National Park (TRNP) and Lostwood Wilderness Area (LWA). The SIP revision includes a Permit to Construct for each of five electric utility

steam generating plants which establishes limits for sulfur dioxide and nitrogen oxides that are intended to improve visibility impairment in TRNP and LWA. National Park Service and the U.S. Fish and Wildlife Service, Federal Land Managers for TRNP and LWA respectively, as well as the U.S. Forest Service have provided comments on the draft Regional Haze SIP revision. The comments and the Department's response to those comments are found in Appendix J.1 of the SIP revision. These documents may be accessed at the website listed above or by contacting the Department. If you plan to attend the hearing and will need special facilities or assistance relating to a disability, please contact the Department of Health at the above address at least seven days prior to the hearing.

Dated this 25th day of November 2009  
Terry L. O'Clair, P.E.  
Director, Division of Air Quality  
(December 6, 2009)
