Dear Sir,

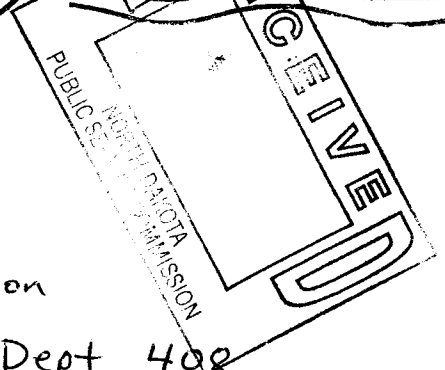

I am writing in concern about the timing of the Minnesota Power Line hearings for case number PU-09-670. I am requesting that the hearings take place no earlier than June 15, 2011. I have been informed that the hearings may take place in early May and this would be very difficult for landowners and farm operators to attend as they will be engaged in planting their crops. Thank you for your consideration of delaying the hearing until June 15 or later.

Thank you,
Mark Hagemeister
