RE: Case #PU-09-670

Dear Mr. Nitschke:

I am writing this letter of request for a change of date for the hearings regarding Minnkota Power Cooperatives 345kv transmission line from Center to Grand Forks (case #PU-09-670) to later June 2011. As most of us in agri-business know May is a very busy time for farmers especially this year because of the potential late planting. This will insure equal opportunity for all involved to have their voices heard.

I appreciate your efforts in this matter and I know many other landowners will appreciate those efforts also.

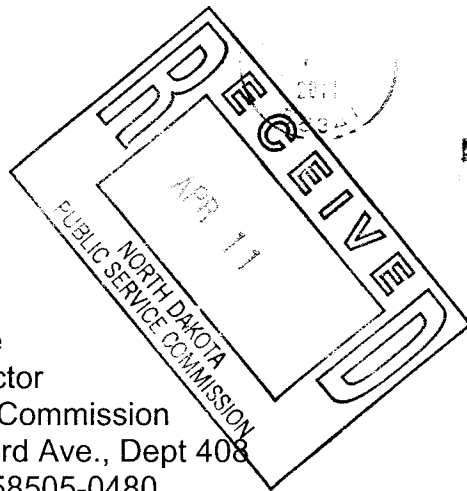

Sincerely,

Doug Olschlager

DWO/tmh
