

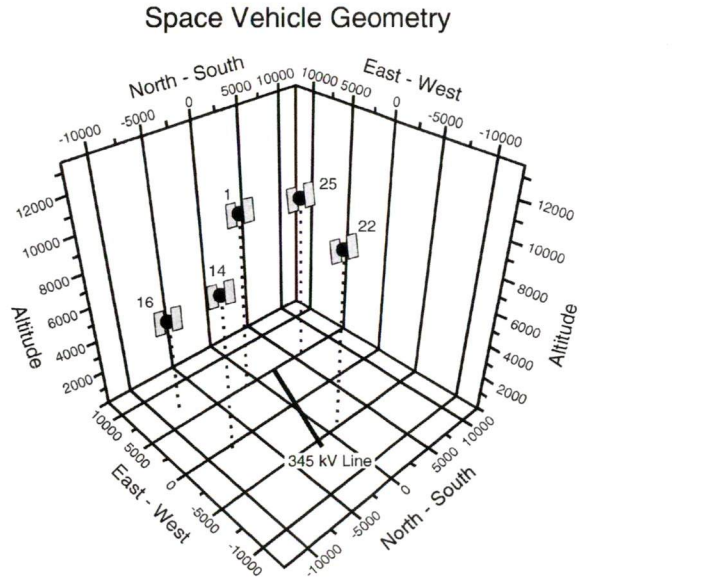

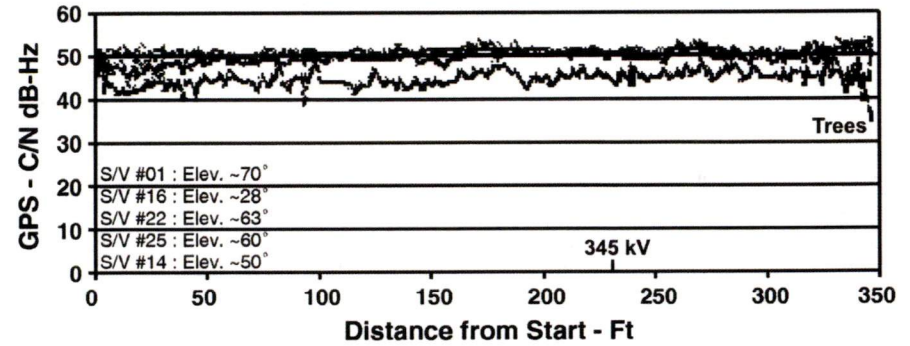

Exhibit 17

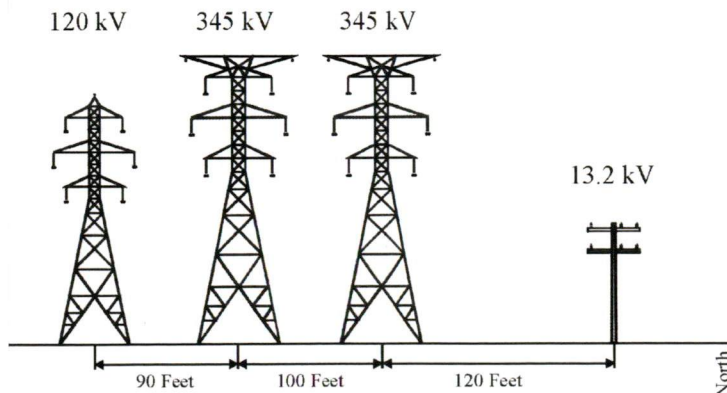

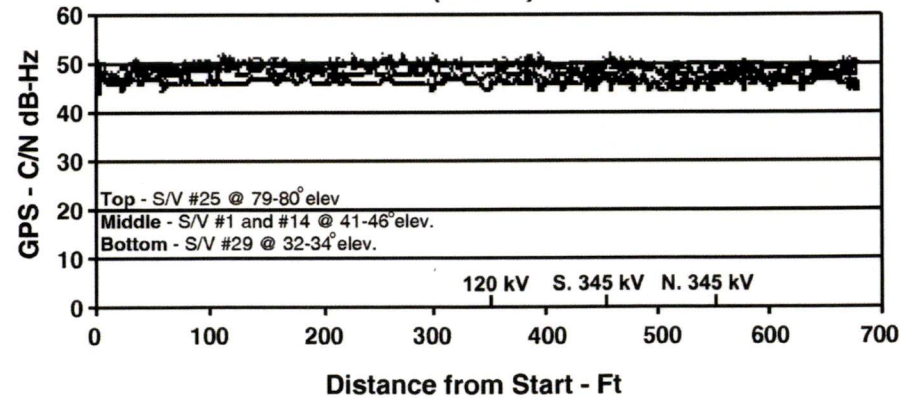

GPS Signal Strength Measurements

GPS C/N vs Distance Across 345 kV Easement (Site #1)

GPS C/N vs Distance Across 120/345/345 kV Easement (Site #2)

GPS satellite signal measurements driving under 345 kV lines. GPS signal strength was tracked using 5 GPS satellites. The GPS signal strength did not change while driving under the 345 kV lines.
