Re: Minnkota Structure Removal Document

Dear Leona Olsen:

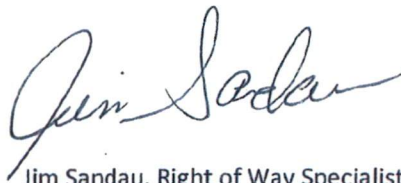

Enclosed are the documents for house on your property in Griggs Co. that we discussed the last time I talked to you on the phone. As you can see, Minnkota Power Cooperative Inc. is going to send some money your way, but more than that, they will remove the structure and clean up the area .

We have sent an Exhibit A of the structure along in this packet. Please draw on this a map of where you think the well is located and where the electrical connection to the house is located.

Also, I would ask you to please contact the electric company to make sure the power that runs to the house is disconnected at the pole.

We are sending a return envelope along for your use to return the documents back to Kadrmass, Lee & Jackson.

Sincerely,
Kadrmass, Lee & Jackson, Inc.

Well #1 is located beneath the windmill. The water line runs from the well to the northeast corner of the main portion of the house.
Well #2 is located approximately 60 feet north of the house. There is a gas vent cover 3-4 inches above the ground. That water line taps into the first water line approximately midway between the house and well #1. (see back)

There is an underground electric line that runs
fairly adjacent to the main water line.

The electric line is NOT live. There has NOT
been live current to the house in 15 years.

Dear Lois Peterson:

Under North Dakota law (N.D. Century Code § 49-22-05.1 and N.D. Administrative Code § 69-06-08-02), certain geographical areas are designated as "avoidance areas" that shall not be considered in the routing of an electric transmission facility unless there is no reasonable alternative. One such geographical area is the area within five hundred feet of an inhabited rural residence.

North Dakota Century Code § 49-22-05.1 authorizes an owner of such an inhabited rural residence to waive, in writing, this five hundred foot setback area criteria. If an owner chooses to waive this setback, it means the owner does not object to construction of the electric transmission facility within five hundred feet of his or her residence.

If you do not object to construction of the Center to Grand Forks electric transmission facility within five hundred feet of your residence and you wish to voluntarily waive the setback criteria, please read the waiver included with this letter and sign your name to signify that you wish to voluntarily waive the avoidance area criteria.

If you have questions about this waiver, we encourage you to contact your attorney before you sign and return the waiver.

WAIVER PAYMENT AGREEMENT

MINNKOTA POWER COOPERATIVE, INC., hereby agrees to pay, and the undersigned Landowner(s) hereby agrees to accept, the sum of _____ in full payment for the waiver of the 500 foot setback requirement as defined by ND Century Code 49-22-05.1 and ND Administrative Code 69-06-08-02 upon the land described below:

Township 150 North, Range 54 West of the Fifth Principal Meridian
Section 33: Dwelling in SE4

in the County of Grand Forks, and State of North Dakota.

The payment required under this Agreement will be mailed to the undersigned Landowner to the order and address as directed below not later than 60 days after the **Option to Purchase Right of Way Easement** has been exercised.

Waiver payment calculations are based on a verifiable perpendicular distance from the closest part of facility (i.e. davit arm, phase conductor) to the closest edge of the landowner's occupied dwelling. No adjustments will be made to the payment required under this Agreement, unless the location of the electric transmission line is changed due to an approved Landowner request, or in the event that the Public Service Commission process requires such change

Should the lines location change so that it is ultimately located outside the 500 foot setback area, no payment would be due hereunder and no waiver would be obtained.

MINNKOTA POWER COOPERATIVE, INC., hereby agrees to pay, and the undersigned Landowner(s) hereby agrees to accept, the sum of \$ _____; in full payment for the waiver of the 500 foot setback requirement as defined by ND Century Code 49-22-05.1 and ND Administrative Code 69-06-08-02 upon the land described below:

Township 147 North, Range 71 West of the Fifth Principal Meridian
Section 4: Dwelling in NE4

in the County of Wells, and State of North Dakota.

The payment required under this Agreement will be mailed to the undersigned Landowner to the order and address as directed below not later than 60 days after the **Option to Purchase Right of Way Easement** has been exercised.

Waiver payment calculations are based on a verifiable perpendicular distance from the closest part of facility (i.e. davit arm, phase conductor) to the closest edge of the landowner's occupied dwelling. No adjustments will be made to the payment required under this Agreement, unless the location of the electric transmission line is changed due to an approved Landowner request, or in the event that the Public Service Commission process requires such change

Should the lines location change so that it is ultimately located outside the 500 foot setback area, no payment would be due hereunder and no waiver would be obtained.

Total Waiver Payment Amount \$ _____

Payment is due upon exercise of Option to Purchase Right of Way Easement

Larry Krueger

The Landowner, undersigned, hereby acknowledges receipt of a copy of this Payment Agreement and of the Waiver herein referred to.

Dear Jon and Jacqueline Sletten:

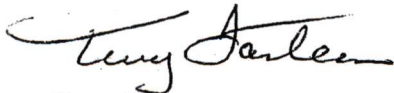

Under North Dakota law (N.D. Century Code § 49-22-05.1 and N.D. Administrative Code § 69-06-08-02), certain geographical areas are designated as "avoidance areas" that shall not be considered in the routing of an electric transmission facility unless there is no reasonable alternative. One such geographical area is the area within five hundred feet of an inhabited rural residence.

North Dakota Century Code § 49-22-05.1 authorizes an owner of such an inhabited rural residence to waive, in writing, this five hundred foot setback area criteria. If an owner chooses to waive this setback, it means the owner does not object to construction of the electric transmission facility within five hundred feet of his or her residence.

If you do not object to construction of the Center to Grand Forks electric transmission facility within five hundred feet of your residence and you wish to voluntarily waive the setback criteria, please read the waiver included with this letter and sign your name to signify that you wish to voluntarily waive the avoidance area criteria.

If you have questions about this waiver, we encourage you to contact your attorney before you sign and return the waiver.

Sincerely,

A handwritten signature in black ink, appearing to read "Terry Fasteen". The signature is fluid and cursive, with a long horizontal stroke at the end.
