Re: 2016 Report Regarding Tree/Shrub Replacement Plan
Case No. PU-09-670

Dear Mr. Nitschke:

With this letter, Minnkota Power Cooperative, Inc. submits for filing its 2016 Report Regarding Tree/Shrub Replacement Plan for PU-09-670 – 345-kV Transmission Line – Center to Grand Forks. Additionally, please find 10 copies of the 2016 Report without the numerous exhibits. If additional copies of the exhibits would be useful, please let me know and I'll promptly provide. Also enclosed are a summary table and an Affidavit of Service.

Should you have any questions with respect to this filing, please contact me.

Sincerely,

Joel L. Larson
Staff Attorney
Minnkota Power Cooperative, Inc.

STATE OF NORTH DAKOTA
BEFORE THE PUBLIC SERVICE COMMISSION
PU-09-670

REPORT REGARDING TREE/SHRUB REPLACEMENT PLAN:
SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED 2013
SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED 2014
SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED 2015
TREES/SHRUBS PLANTED IN 2016
TREES/SHRUBS TO BE PLANTED IN 2017

The Public Service Commission of North Dakota (the Commission) approved Minnkota Power Cooperative, Inc.'s (Minnkota) Tree and Shrub Replacement Plan for the 345 kV Transmission Line – Center to Grand Forks by Motion dated May 28, 2014. The approved plan provided that Minnkota will replace each tree/shrub removed for the Center to Grand Forks Transmission Line project (the Project) to be mitigated on a 2-for-1 basis. In its Replacement Plan, Minnkota indicated the total trees/shrubs to be replaced is 58,454. This report provides information of the plans to plant a total of approximately 68,799 trees/shrubs as shown on the Attached Exhibit 1.

The approved plan provided that planted trees/shrubs will be inspected once each year for three years to determine the survival rate of the trees/shrubs and to determine whether additional plantings of trees/shrubs are necessary based on the survival rate. Minnkota is to submit a report regarding the survival rate of the trees/shrubs. This is the second report Minnkota is submitting to the Commission for this Project to inform as to the status of the trees and shrubs that were planted from 2013 through 2015, in addition to the trees planted in 2016 and the trees anticipated to be planted in 2017. Minnkota will submit an additional report on or before October 1 of each successive year until three years have elapsed after the final planting season. Minnkota hereby submits this 2016 Report Regarding Tree/Shrub Replacement Plan.

1. SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED IN 2013 (SECOND INSPECTION)

As discussed in the 2015 report, Minnkota had the opportunity to plant 1000 trees/shrubs in Burleigh County prior to the commissioning the power line. The planting was completed in conjunction with Burleigh County Natural Resources Conservation Service (NRCS). These trees were inspected in September 2016 and Minnkota hereby submits that the survival rate is 95%. Minnkota will report on the survival rate of these trees again in 2017.

2. SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED IN 2014 (SECOND INSPECTION)

As discussed in the 2015 report, Minnkota planted 328 trees during the 2014 planting season. Minnkota hereby submits that these trees/shrubs were inspected in September 2016 with a 90% survival rate. Minnkota will report on the inspection of these trees in 2017.

3. SURVIVAL RATE, SEPT. 2016, TREES/SHRUBS PLANTED IN 2015 (FIRST INSPECTION)

As discussed in the 2015 report, Minnkota had planted a total of 34,563 trees/shrubs in impacted counties along the transmission line. In Eddy County, 3,425 trees/shrubs were planted of which 2,708 have survived. In Foster County, 531 trees/shrubs were planted, of which 500 survived. In Grand Forks County, 4,579 trees/shrubs were planted, of which 3,625 survived. In Griggs County, 6,618 trees/shrubs were planted, of which 5,295 survived. In McLean County, 1,737 trees/shrubs were planted, of which 753 survived. In Nelson County, 2,425 trees/shrubs

were planted, of which 1,153 survived. In Oliver County, 2,482 trees/shrubs were planted, of which 1881 survived. In Sheridan County, 2,692 trees/shrubs were planted, of which 2677 survived. In Steele County, 438 trees/shrubs were planted, of which 416 survived. In Wells County, 9,636 trees/shrubs were planted, of which 7,159 survived. Of the 34,563 trees/shrubs planted in 2015, 26,167 survived. This is a 75.7% survival rate.

Minnkota will have an inspection completed in 2017 and will again report on the survival rate.

4. TREES/SHRUBS PLANTED IN 2016

In 2016, Minnkota had planted a total of 20,908 trees in impacted counties along the transmission line. In Burleigh County, 3,367 trees/shrubs were planted as shown in Exhibit 2. In Eddy County, 3,258 trees/shrubs were planted as shown in Exhibit 3. In Foster County, 998 trees/shrubs were planted as shown in Exhibit 4. In Grand Forks County, 7,948 trees/shrubs were planted as shown in Exhibit 5. In Griggs County, 1,288 trees/shrubs were planted as shown in Exhibit 6. In McLean County, 2,313 trees/shrubs were planted as shown in Exhibit 7. In Oliver County, 471 trees/shrubs were planted as shown in Exhibit 8. In Sheridan County, 772 trees/shrubs were planted as shown in Exhibit 9. In Wells County, 493 trees/shrubs were planted as shown in Exhibit 10.

All of the trees/shrubs planted in 2016 were planted with cooperation of the landowners and the Natural Resource Conservation offices in the respective counties. Minnkota will have an inspection completed on each area of the newly planted trees and will submit a report to the Commission on the survival rate in 2017.

5. TREES/SHRUBS PLANTED IN 2017

In 2017, Minnkota will have approximately 12,000 trees/shrubs planted in Grand Forks

County. In the 2017 Tree Report, Minnkota will report on the actual count and location of the planted trees.

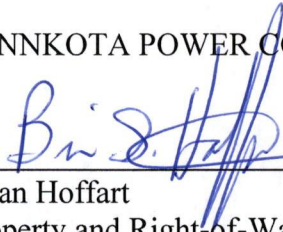

Minnkota Power Cooperative, Inc. respectfully asks the Public Service Commission to accept this 2016 Report as to:

- 1. The survival rate in September 2016 of trees/shrubs planted in 2013;**
- 2. The survival rate in September 2016 of trees/shrubs planted in 2014;**
- 3. The survival rate in September 2016 of trees/shrubs planted in 2015;**
- 4. Trees/Shrubs planted in 2016; and**
- 5. Trees/Shrubs to be planted in 2017.**

DATED this 28th day of September, 2016.

MINNKOTA POWER COOPERATIVE, INC.
