**NOTICE OF HEARING**

**March 24, 2010**

On October 5, 2009, Otter Tail Power Company (Otter Tail) filed an application for advance determination of prudence of Otter Tail's participation and ownership in three high-voltage transmission line projects, Case No. PU-09-676:

- A 250-mile long, 345 kV transmission line between Fargo, North Dakota and the northwest quadrant of the Twin Cities, Minnesota.
- A 200-mile long, 345 kV transmission line between eastern South Dakota and the southeast quadrant of the Twin Cities in Minnesota.
- A 68-mile long, 230 kV transmission line between Bemidji, Minnesota and Grand Rapids, Minnesota.

On October 5, 2009, Northern States Power Company (NSP) filed an application for advance determination of prudence of NSP's participation and ownership in the same three high-voltage transmission line projects and, in addition, a 150-mile long, 345 kV transmission line between La Crosse, Wisconsin and the southeast Twin Cities, Minnesota area and two associated 161 kV lines in the Rochester, Minnesota area, Case No. PU-09-678.

Otter Tail and NSP are requesting that the Commission determine the construction of the transmission projects to be reasonable and prudent in order to provide the basis for future rate stability proposals the companies may present to the Commission.

Anyone wishing to become a party to this proceeding must file a **Petition to Intervene by April 16, 2010.**

A consolidated **public hearing** on these two cases will be held beginning **May 24, 2010 at 8:30 a.m.** in the Commission Hearing Room, State Capitol, 12th Floor,
