Info. Only: _____

Info & File: _____

Century code 38-14.1-21.2 states: The commissions approval or modification of the permit or permit revision application must include consideration of the advise and the technical assistance of the state historical society, etc.

While I was doing researce at the state historical Society, I inquired about Revision NAFK9503-19 and was informed by Paul Pieha that they did not have a copy of it.

Could you please check into this matter, and let me know what they recommended.

Would you also let me know the recommendations of any other state agencies that may have misplaced their copies of Revision NAFK-9503-19

Sincerely Yours

Paul Azure
