**Basin Cooperative Services**  
**Revision No. 36, Permit BCGH-8204**  
**Approval**

**Case No. RC-10-65**

**NOTICE OF PERMIT REVISION APPROVAL**

**November 24, 2010**

**Preliminary Statement**

On March 10, 2010, Basin Cooperative Services applied for Revision No. 36 to Surface Coal Mining Permit No. BCGH-8204 for the Glenharold Mine located near Stanton. Revision No. 36 changes the post-mining land use on 325 acres from native grassland, stockponds and wetlands to industrial use for expansion of the ash disposal facility used by the Leland Olds Power Station. This revision also updates the surface and subsurface ownership information and hydrologic information for permanent ponds, and makes minor changes to standards and methods for measuring revegetation success. The Public Service Commission has completed its review of this application and issued the permit revision.

**Notice**

Any person with an interest which is or may be adversely affected by the revision or permit renewal approval may request a formal hearing with the Commission within thirty days of the publication of this notice. The request should be addressed to the Public Service Commission, State Capitol, 600 E. Blvd Ave Dept. 408, Bismarck, North Dakota 58505. For more information you may contact the Public Service Commission at 701-328-2400.
