In re: Tatanka Wind Power, LLC  
Decommissioning  
Case No. PU-10-073  
Our File No. 010268-000001

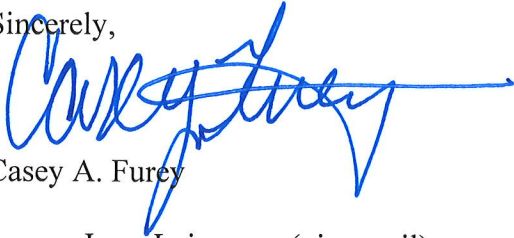

Dear Mr. Kahl:

I am writing on behalf of Tatanka Wind Power, LLC (“Tatanka”) regarding the Commission’s decommissioning rulemaking in Case No. PU-19-291 that establishes new decommissioning requirements for non-jurisdictional wind facilities effective July 1, 2020. Tatanka owns and operates the approximate 91.5-megawatt Tatanka Wind Energy Conversion System located in Dickey and McIntosh Counties which became operational in July 2008. Tatanka previously filed a proposed decommissioning plan and financial assurance with the Commission in Case No. PU-10-073. At the time of filing, the Commission’s decommissioning rules did not extend to non-jurisdictional facilities. Thus, no action was taken on Tatanka’s filings.

In accordance with the PU-19-291 decommissioning rulemaking, Tatanka is actively working with its contractors to review and update its prior decommissioning plan. Once complete, Tatanka will file its decommissioning plan and a corresponding proposed financial assurance with the Commission. However, Tatanka anticipates that these filings will not be ready to submit until after the rules’ effective date of July 1, 2020. Tatanka has communicated with and notified Commission counsel and staff regarding its efforts to come into compliance with the Commission’s new decommissioning rules. In accordance with Commission counsel and staff’s recommendations, Tatanka submits this status filing to provide notice of its ongoing compliance efforts, and to provide notice that Tatanka anticipates filing an updated decommissioning plan and corresponding financial assurance by mid to late August 2020, or sooner.

Please feel free to contact me with any questions. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Casey A. Furey", with a long horizontal flourish extending to the right.

Casey A. Furey
