Subject: Gov. Ops Budget Committee Meeting This Morning

The committee decided to amend two areas of our budget.

- (1) In lieu of adding a new gas pipeline inspector, they amended the bill to include a legislative study that will review gas pipelines throughout the state. The agencies mentioned in the study were the Industrial Commission, Oil and Gas, Public Service Commission, and Oil Companies.
- (2) The \$900,000 Rail Rate Fund has been removed from the PSC budget.

The bill received a "Do Pass" with amendments from the committee.
