**Subject:** SB2008 Conference Committee

Josh,

The conference committee on SB2008 met this evening at 5:00. I have been trying to let all my agencies know when their conference committees have been scheduled. This one must have been scheduled late this afternoon, because I didn't see it on the schedule until about 4:55. Anyway this is a summary of the action the committee took on the bill....

### SB 2008 – PSC

- House receded from House amendments
- Further amended to include pipeline study language that was originally included in House amendments
- Basically this action keeps the \$900,000 for the Rail Rate Complaint Case from the Beginning Farmer Revolving Loan Fund in the bill and includes language for a pipeline safety study
- Vote was 6-0

Let me know if you have any questions.
