 Case No. PU-10-164  
**NOTICE OF FILING AND NOTICE OF HEARING**  
 March 9, 2011  
 On February 7, 2011, Montana-Dakota Utilities Co., A division of MDU Resources Group, Inc., (MDU) filed an application for a waiver of procedures and time schedules, a corridor certificate and a route permit to authorize construction of approximately 30 miles of 230 kV electric transmission line and associated facilities in Dickey and McIntosh Counties of North Dakota, as shown on the attached map.  
 MDU requests the Commission waive procedures and time sched-

ules set forth in North Dakota Century Code chapter 49-22 and North Dakota Administrative Code article 69-06 to allow for a single consolidated application for corridor certificate and route permit and to hold a combined hearing on the waiver request and application for corridor certificate and route permit.  
 A Public Hearing on the application is scheduled to begin April 15, 2011, at 10:00 a.m. CT, at Teddy's Grill, 1101 Industrial Park, Edgeley, ND 58433. The issues to be considered are:  
 1. Will the location, construction, and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?  
 2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?  
 3. Will the proposed facility loca-

tions minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?  
 4. Is it appropriate for the Commission to waive procedures and time schedules as requested, including the request for a single consolidated application for corridor certificate and route permit?
