PUBLIC SERVICE COMMISSION

Tariff Department:

Enclosed for filing with the North Dakota Public Service Commission (NDPSC) are seven copies of the following local tariff issued by Enbridge Pipelines (North Dakota) L.L.C. (Enbridge North Dakota):

NDPSC Tariff No. 60 canceling NDPSC Tariff No. 59

Explanation of Tariff Filing

This tariff is the local proportional tariff for rates applying on the transportation of crude petroleum. The filing of this tariff is in part, an index compliance filing in accordance with 18 C.F.R. 342.3, and in part, a compliance filing with settlement agreements as described below. Only the base portion of the Enbridge North Dakota rate is subject to the FERC index.

On October 31, 2006, the Federal Energy Regulatory Commission (Commission) issued a letter order (FERC Docket No. OR06-9-000) approving an uncontested Offer of Settlement filed by Enbridge North Dakota on August 14, 2006 with respect to two agreed upon changes to Enbridge North Dakota's tariff rates: (1) the Mainline Surcharge; and (2) the Looping Surcharge. These cost-of-service based surcharges relate to the Phase V Expansion of the pipeline system and, pursuant to the 2006 Offer of Settlement, are not subject to the FERC index methodology. On March 23, 2010 the Commission approved a motion by Enbridge North Dakota (FERC Docket No. OR10-9-000) to extend the term of the Looping Surcharge by four years; therefore, ending on December 31, 2016.

In January 2008, Enbridge North Dakota filed an Offer of Settlement seeking the Commission approval of a mechanism to recover the costs of the planned Phase 6 Expansion of capacity on the pipeline's system, which was approved by the Commission on October 20, 2008 (FERC Docket No. OR08-6-000). The Offer of Settlement outlined that the expansion costs would be recovered through a cost-based surcharge that is trued-up annually and is not subject to the FERC index methodology. The surcharge is added to the existing Enbridge North Dakota base rates and other previously-approved surcharges.

Attached to this package as Appendix A is a table showing the ceiling levels on the base portion of the Enbridge North Dakota rate that is subject to the July 1, 2010 multiplier of 0.987026 issued by the

Commission on May 19, 2010 in Docket No. RM93-11-000. Appendix B is a table showing the individual components of the Enbridge North Dakota rate: (1) the base indexed rate as calculated in Appendix A; (2) the Phase V Expansion Surcharges; and the Phase VI Expansion Surcharge.

All rates in this tariff that are subject to the index have decreased effective July 1, 2010. In addition, the contact information of the compiler has changed on page one of NDPSC Tariff No. 60.

A check in the amount of fifty dollars in payment of the filing fee has been sent via certified mail along with a paper copy of this tariff.
